RISK FACTORS

The purpose of this section is to enable a potential investor to assess the relevant risks related to their potential investment in the Bonds in order to make an informed investment decision. The risk factors set forth below are therefore limited to risks that, in the meaning of Regulation (EU) 2017/1129, are material and specific, to the Company, the Group and the Bonds.

The manner in which the Company, the Group or the Bonds are affected by each risk factor is illustrated by way of an evaluation of the materiality of the relevant risk factor based on the probability of it occurring and the expected magnitude of its negative impact, for the purpose of which the probability is estimated as “low”, “medium” or “high” and the magnitude of negative impact if it would occur as “low”, “medium” or “high”. The most material risk factors in a category are presented first under that category, whereas subsequent risk factors in the same category are not purported to be ranked in order of materiality.

RISK FACTORS SPECIFIC AND MATERIAL TO THE ISSUER AND THE GROUP

Risks related to the industry and the market

Changes to the value of the Group’s properties

The value of the Group’s investment properties (Sw. *förvaltningsfastigheter*) are accounted at real value in the balance sheet and any changes to the value of the properties will be accounted for in the income statement. On 30 September 2025, the Group’s property portfolio comprised a total value of SEK 9,800 million (in relation to the Group’s total assets of SEK 11,488 million). Generally, the market value of a property is displayed in a value range of +/- 5-10 per cent. to reflect the uncertainty in the assumptions. As per 30 September 2025, with an uncertainty interval of +/-10 per cent., the Group’s property portfolio is affected by SEK 980 million. Property specific factors, such as lower rental levels, higher vacancy rates and higher property expenditures (see risk factors “*Rental levels and rental development*” and “*Property costs*” below), as well as market specific factors, such as interest rates (see risk factor “*Interest expense risks*” below) and higher yield demands (see risk factor “*Macroeconomic factors*” below), may lead to a decrease in value of the Group’s properties. Large decreases in property value may affect the Group’s ability to maintain financing and obtain new financing, as part of the Group’s ongoing ordinary course operations (see risk factor “*Financing and liquidity risks*” below). Given that the Group’s accounted assets mainly consist of properties, a decrease in value could give rise to a number of negative consequential effects for the Group which could have an impact on the Group’s business, results and financial position. The Company considers the probability of any of the risks occurring to be high. As valuation decreases could have a significant effect on the Group’s financial position, the Company considers the potential negative impact of any of the risks to be high.

Dependence on available financing alternatives

Genova’s business model is based on its ability to obtain necessary financing besides equity, i.e. the business is to a large extent financed by loans. The access to and terms of such borrowed capital is dependent on the conditions for lending liquidity in the financial system. In the event that a financial crisis or distressed situation occurs, and the stability of the financial system is disturbed or ceases to function, Genova’s access to financing may be significantly affected. For example, in connection with the financial crisis in 2008, the bank sector in Europe suffered a lack of liquidity, since the access to borrowed capital was deteriorated, which in turn lead to a

deterioration of the access to and the terms of bank loans and initially also increased the credit margins and so the interest rates. Further, uncertainties in the financial markets over the last three years have negatively affected Genova's and other market participants' access to capital market financing. Thus, in the event of a new financial crisis or distressed situation, there could be difficulties for Genova in incurring new loans or refinancing existing loans, on acceptable terms or at all, which would affect Genova's possibility to act in accordance with its business model. This would affect the Company's operations and results.

The Company considers the probability of a financing risk as per the above occurring to be low. If the risk would materialise, the Company considers the potential negative impact to be high.

Rental levels and rental development

The Group's financial results are generally negatively affected in the case of decreased occupancy rates or rental levels. On 30 September 2025, the Group's wholly owned investment property portfolio comprised 75 investment properties with a market value of approximately SEK 7,658 million, allocated over approximately 336 thousand square meters, with 402 tenants agreements and an average tenancy duration of close to 4.3 years. The ten largest tenants accounted for approx. 30 per cent. of contracted rental income. There is a risk that the Group fails to let planned projects or that the Group's tenants do not renew, fulfil or extend their tenancy agreements. Increased vacancy levels generally lead to a decrease in the Group's rental income. If Genova fails to achieve and maintain planned occupancy rates in new projects or if Genova's vacancies increase dramatically and the Group fails to replace such vacancies, the Company considers the potential negative impact to be high. A decrease in the vacancy levels of 2 per cent. is estimated to decrease cash flow by SEK 11 million, and a decrease in the contracted annual rent of 5 per cent. is estimated to decrease cash flow by SEK 25 million. The negative effects, of planned occupancy rates or rental levels in new projects not being achieved, is generally higher than if occupancy rates or rental levels in the existing portfolio decrease. The Company considers the probability of this risk occurring to be low, however, the probability significantly increases in the event of a material deterioration of the macroeconomic development.

The Group is also dependent on timely rental income, and in case the tenants would not pay their rents as they fall due (or do not pay at all), or otherwise fail to fulfil their obligations, this could have a material negative impact on the Group's earnings and the value of its receivables.

The Company considers the probability of the risk occurring to be low, however, the probability significantly increases in the event of a material deterioration of the macroeconomic development. If the risks were to occur, the Company considers the potential negative impact to be high.

Macroeconomic factors

The Company's business is to a large extent affected by macroeconomic factors such as the general state of the economy, national and regional economic developments, the developments in employment rate, production of new residential condominiums and premises, infrastructural development, population growth, demographic developments, construction costs as well as inflation and interest rates. The Group operates mainly within the region of greater Stockholm and Uppsala, and is consequently primarily exposed to the regional economic development in these geographical markets. The value of the Group's investment properties as per 30 September 2025 is to 42 per cent. attributable to greater Stockholm, to 32 per cent. attributable to Uppsala, to 16 per cent. attributable to western Sweden, and with the remaining 10 per cent. attributable to other regions in Sweden. For example, the local economic growth affects the developments in employment rate and salaries as well as the demand on the relevant rental market, which in turn affect vacancy rates and rental levels, in particular in respect of commercial premises. A decreased demand in the current market may lead to difficulties in finding tenants and, as a result, lower revenues for the Group.

Inflation expectations have an impact on interest rates, which consequently affects the Group's result from property management as interest expenses are one of the Group's largest single costs (for the financial year 2024, the Group's interest expenses for loans and leasing amounted to approximately SEK 216.3 million). For the effects on the Group from interest rate changes, see further risk factor "*Interest rate risks*" below. Changes, and expectations on changes, in the inflation rate could impact yield requirements on properties and, consequently, the market value of the Group's properties, which in turn could lead to various negative effects (see risk factor "*Changes to the value of the Group's properties*" above). Furthermore, a negative development of the real estate market during the implementation of a project, may lead to a reduction of the Group's profitability from project development, losses or that the Group cannot divest the property at all or only on less favourable terms, which in turn may result in diminished property value and decreased profit.

The Company considers the probability of several macroeconomic factors that may have high material adverse effect on the Group's operations, results and financial position occurring to be low. However, the probability that some negative macroeconomic factors may occur is high. The negative effect of such factors depends on the nature of the relevant macroeconomic factor and its severity. For instance, the potential negative impact from increased market interest rates (see risk factor "Interest expense risk" below) or deteriorated access to financing (see risk factor "Financing and liquidity risks" below) is considered to be high, while the potential negative impact from demographic changes alone is considered to be low.

Project development risks

Part of the Group's business activities consist of project development. As per 30 September 2025, the Group had projects in its portfolio with total lettable area of approximately 511,000 square meters, consisting of 8,130 building rights, and a total project portfolio value of approximately SEK 26,752 million. The possibility of implementing development projects with financial profitability depends upon the projects coming into production and being completed, which in turn depends on several factors, such as the ability to retain and recruit necessary expertise within, *inter alia*, construction, project planning, architecture and marketing, as well as to obtain necessary permits and authority approvals and procuring contracts for project implementation on acceptable terms. The financial profitability of such development projects is also affected by any contractors' or counterparties' possibility of transferring any increased costs, for example increased construction costs, onto the Group. Furthermore, the Group's project development is dependent on a continuous supply and financing of new projects on acceptable terms, and that the Group's projects are being tailored to adequately respond to market demands. The possibility to implement profitable project development is further affected by factors such as changes in the market demand of housing and premises and the price of properties in general, inadequate planning, analysis or cost control, changes in taxes and fees and other factors that could lead to unexpected costs for the projects, to lower than expected profitability for the Group and/or adverse effects on the value of the Group's properties. In addition, delays in projects may decrease profitability. The profitability is also affected by defects and shortcomings that are discovered and taken care of subsequent to access (Sw. *eftermarknadsåtgärder*). The Company considers the probability of any of the abovementioned risks occurring to be low. If the risk were to occur, the Company considers the potential negative impact to be low.

Genova does not conduct any construction business activities on its own and depends upon contractors for all construction. This results in a vulnerability in relation to the reliability and ability of the contractors with whom Genova is co-operating. If Genova fails to enter into, or enters into ambiguous or inadequate, agreements with contractors, Genova will be exposed to the risk of sub-contractors not delivering in accordance with Genova's expectations. Contractors may also fail to fulfil agreed terms, for example regarding costs, quality and delivery time. Such deficient fulfilment may be due to financial difficulties of the contractor concerned, which prevent the relevant contractor to deliver in accordance with agreed terms. The possibility to implement profitable property

projects is, among other things, affected by Genova's contracted construction works being delivered and produced at the agreed price and within the agreed time, as Genova's property projects may otherwise be delayed and become more costly, with negative consequences for Genova's other operations, its brand and its results. During 2019, a construction contractor working for Genova, went bankrupt and Genova took on the responsibility to complete the assignment, which lead to delays and increased cost for Genova in the current project. Considering this experience, the Company considers the probability that contractors fail to deliver in accordance with Genova's expectations in the future to be low. The negative effects of such breach of contract depend on the nature and cause of the breach and any macroeconomic factor, including its severity, affecting the contractor and causing the breach. For example, the potential negative impact of a contract breach due to financial difficulty of the contractor concerned, is considered to be high and primarily affect the Group's profitability and operational activities, while the potential negative impact of contract breach in terms of quality and delivery time is considered to be medium and primarily affect the Group's financial position and business.

Property costs

The Group's operating costs mainly consist of costs for heating, water, property maintenance, cleaning and insurance. As per 31 December 2024, the Group had operating costs on a 12-month basis of SEK 98.9 million. The Group has limited control over these costs. To the extent increases in such costs are not, directly or indirectly, compensated in accordance with the terms of tenancy agreements (including any indexation), or by renegotiation of tenancy agreements such as in relation to rent increases, it could have a material negative impact on the Group's results (see risk factor "*Changes to the value of the Group's properties*" above). The Company considers the probability of an increase in the relative operating costs (*i.e.* without taking into account a larger property portfolio and an altered product mix) to be low. If the risk were to occur, the Company considers the potential negative impact to be low.

Maintenance costs are attributable to actions that intend to maintain the properties' original standard and value. In addition to maintenance costs, unexpected expenses related to adjustments for tenants normally arise. In the financial year 2024, the Group had maintenance costs of SEK 28.7 million. Unexpected and large renovation needs may entail significant expenses for the Group. The Company considers the probability of the risk occurring to be high. If the risk were to occur, the Company considers the potential negative impact to be low.

Technical risks

The Group's property management, project development and property acquisitions are associated with technical risks, which include risks associated with the technical status of the property, such as the risk for construction errors, other latent defects and deficiencies, damages and pollution. If such technical problems would occur, they may cause delays of planned property development projects, or increased costs for upgrading and management of the Group's properties (including measures needed in respect of properties already disposed of). Any technical deficiencies in the properties developed by the Group may also constitute a breach of warranties that the Group has made to acquirers of such properties, which in turn may lead to increased costs for the Group – see for example "*Risks related to acquisitions, disposals and other transaction-related risks*" above.

The Company considers the probability of the abovementioned risks occurring to be medium. If the risks were to occur, the Company considers the potential negative impact to be medium.

Role distribution and dependence on key personnel

Genova's organisation is built around a number of individuals with many years of experience in property management, project development, financing and marketing. Its own capacity is complemented by purchased services, in order to give the organisation flexibility and capacity to handle large project volumes despite its limited

size. Genova's narrow organisation may cause the Group to incur losses due to inadequate routines regarding, among other things, role distribution, internal control, appropriate administrative systems, competence development and access to reliable valuation and risk models.

Due to the limited size of the organisation, the Group and its operations are further dependent on a number of key people, including Genova's senior executives. Through their experience, these key people have built good relationships with actors in the property market in Sweden and these key people are therefore important for a successful development of the Group's business.

If Genova's procedures fail or lead to incorrect decisions or if key people leave Genova, it could have a medium negative impact on Genova's operational activities. The Company considers that the probability of the risk occurring is low.

Risks related to acquisitions, disposals and other transaction-related risks

The Company's operations continuously involve property transactions. For example, in August 2025, the Group entered into an agreement for the acquisition of the outstanding thirty per cent. stake in a joint venture at a total underlying property value of approximately SEK 650 million and in October 2025, the Group entered into an agreement and a letter of intent for the acquisitions of properties at a total underlying property value of approximately SEK 1,234 million. Such transactions are associated with risks and uncertainties. Acquisitions of properties are for instance associated with uncertainty in relation to the handling of tenants, unexpected costs with respect to environmental clean-up, rebuilding and handling technical problems, decisions from authorities and the occurrence of disputes relating to the acquisition or the condition of the property. Such uncertainties may result in delays and increased and/or unexpected costs for the transaction and that the value of the acquired property will therefore be lower than expected. In connection with the disposal of a property, there is a risk that claims could be directed against the Group regarding, among other things, the condition of the disposed property and provided warranties.

The Company considers the probability of any of the risks occurring to be low. If any of the risks were to occur, the Company considers the potential negative impact to be low.

Legal and regulatory risks

Changes in tax rules

Tax is a significant cost item for the companies in the Group. The Group's operations are affected by tax rules in force at any time and changes to these rules will thus have an effect on the Group. Changes to the property tax and other taxes such as corporate tax, VAT and other governmental charges as well as rules regarding tax exempted disposals of shares could thus have a negative impact on the Group's operations and results.

As the Group's operations are capital intensive, the Group is affected by the new interest deduction limitation rules that entered into force in Sweden on 1 January 2019. The new rules entail a general limitation for interest deductions within the corporate sector by introducing an EBITDA-rule implying that a company is only given the right to deduct a negative net interest income (the difference between the company's deductible interest expenses and its taxable interest income) corresponding to a maximum of 30 per cent. of the company's taxable EBITDA. In connection with the introduction of the general interest deduction limitation rules, the corporate tax rate was also reduced, in a first step to 21.4 per cent (as per 1 January 2019) and in a second step from 21.4 per cent to 20.6 per cent (as per 1 January 2021).

As per 30 September 2025, the Group's total outstanding interest bearing debt amounted to SEK 6,409 million. Depending on how the Group's capital structure and operating profit appear going forward, the new rules, despite the reduction in the corporate tax rate, may have a material adverse effect on the Group's results.

The Company considers that the probability of further changes in tax legislation that result in changes in the Group's tax position to be high. If the risk were to occur, the Company considers the potential negative impact to be high.

The Group is subject to political decisions that affect the operations

In order for the Group's properties and building rights to be used and developed as intended, different permits and rulings, including, zoning plans, building permits and other forms of land parceling are required, all of which are granted by local authorities and municipalities, both on a political and an official level. There is a risk that decisions and rulings are delayed and/or that the Group is not granted the permits or the decisions needed to conduct and develop the Group's operations as intended or that the intended projects only could be carried out at higher costs and/or lower development rate than expected or with delays. This could also have an impact on the value of the Group's properties. Furthermore, there is a risk that permits are appealed, and that processes are therefore significantly delayed, or that established practice and/or the political environment in which the Group operates changes in an undesirable way for the Group. The Company considers the probability of any of the risks occurring to be high.

Property operations are also materially affected by more general political decisions by way of laws, regulations and other decisions by authorities regarding for example planning and construction processes, taxes and fees, construction requirements (e.g. safety requirements, environmental requirements, building standards, material requirements, etc.) and the rent control in the housing market. These rules and regulations are subject to changes, both due to political decisions and due to the legal interpretation of the rules and regulations. For example, in autumn 2019 a Court of Appeal (Sw. *Hovrätt*) ruling led to rent reductions for a number of newly built rental apartments in Uppsala. If the regulatory framework were to change, or if Genova's interpretation of existing laws and regulations prove to be incorrect, this could have a material negative impact on the Group's operations. The Company considers the probability of the risk occurring to be low. If the risk were to occur, the Company considers the potential negative impact to be high.

On 1 December 2021, the Riksdag decided to phase out the so-called investment grants (Sw. *investeringsstöd*) for construction of rental apartments and student housing, with money being made available to developers granted investment grants no later than 31 December 2022. The investment grant comes with certain requirements, *inter alia* in terms of rental levels (which must not exceed a certain level), tenant agencies (through municipal housing agencies or otherwise pursuant to open and transparent principles) and energy usage. Genova has one ongoing project which has received an investment grant. However, competitors of Genova, with projects in the same area as Genova, may have been granted investment grants affecting such competitors' business models for ongoing projects, which may lead to lower rental levels in the area. In the longer term, investment grants could thus have adverse effects on rental levels in the areas also where Genova's properties are located. The Company considers the probability of the risk occurring to be medium. If the risk would materialise, the Company considers the potential negative impact to be low, since the impact is deemed geographically isolated.

Agreements (such as land development agreements) and procedures (such as zoning plan procedures) in the public sector, and the procedures relating thereto, are often subject to a more extensive review and public scrutiny than commercial agreements between private parties. The publicity and the political aspects of publicly procured agreements with municipalities and authorities imply an increased risk in relation to the Group's reputation.

Negative publicity concerning the Group, regardless of its truthfulness, could have a material negative impact on the Group's operations. The Company considers the probability of any of the risks occurring to be high. If the risk were to materialise, the Company considers the potential negative impact to be medium.

The Company is from time to time dependent on temporary building permits in order for the Company, or its tenants, to be able to carry out planned operations on the property. In the event that such a temporary building permit would not be granted or extended, planned or ongoing use of the property may need to be changed or discontinued, which could adversely affect the Company's investment property portfolio. The company considers the probability of the risk occurring to be low. If the risk were to occur, the Company considers the potential negative impact to be medium.

Tax risks

The Group's operations are conducted in accordance with the Group's interpretation of applicable laws and regulations and current practice within the area of tax, and in accordance with advice from tax consultants. However, it cannot be ruled out that the Group's interpretation of applicable tax laws and regulations is incorrect or that such regulations or practice changes, possibly with retroactive effect. The Group may also, from time to time, be subject to tax audits which may result in additional tax or fees to be payable. Auditing of this type may be carried out for an extended period of time and this generally means that any tax increases cannot be ruled out before such audit has been completed. The Group's tax situation is also affected by whether transactions between companies within the Group are considered to be market-priced and whether the Group's applied allocation principles, when allocating purchase value to properties, are considered correct.

Some senior executives have been offered and have acquired shares in companies within the Group. In September 2019, the Company repurchased such shares from senior executives through share exchange transactions, resolved pursuant with the so-called Leo Act (Sw. *Leo-lagen*). The Group believes that these transactions have been conducted on market terms. However, if any of these transactions are not considered to have been entered into on market terms, there is a risk that additional taxes, interest or fees will be imposed on the Group.

The company considers the probability of the risk occurring to be medium. If the risk were to occur, the Company considers the potential negative impact to be medium.

Environmental risks

According to Swedish legislation, the main rule is that the business operator, either current or former, is responsible for the remediation of a contaminated property. There can be, or in the past there may have been, tenants on the properties owned directly or indirectly by the Group who conduct operations that may require remediation in accordance with the Swedish Environmental Code (Sw. *miljöbalken (1998:808)*).

If no operator can perform or pay for the remediation of a contaminated property, the party who has acquired the property is responsible for the remediation if the party knew of, or at the time ought to have discovered, the contaminations. As of 30 September 2025, the Group's wholly owned investment property portfolio comprised 75 investment properties and development projects comprised 8,130 building rights, all of which pertain ownership of real property. This means that remediation claims under certain circumstances may be directed against the Group for cleaning-up or after-treatment due to the occurrence of, or suspicion of, contamination in the ground, water areas or groundwater, in order to ensure the properties are in such condition as required by the Environmental Code. If any of the Group's properties turns out to be contaminated, this could limit the Group's intended use of

the property, lead to significant costs for after-treatment and/or have adverse effects on the value of the Group's properties.

If changes to legislation and authority requirements were to occur this might lead to increased costs for remediation or after-treatment for current or in the future acquired properties. Furthermore, future changes in applicable laws and regulations and authority requirements may lead to increased costs for the Group and delay the Group's intended development of properties.

The Company considers the probability of any of the risks occurring to be low. If any of the risks were to occur, the Company considers the potential negative impact to be medium.

Risks related to accounting rules and uncertainty in estimates

The Group is affected by the accounting rules applicable in the jurisdictions in which the Group operates, including IFRS and other international accounting standards. The Group's accounting, financial reporting and internal control may in the future be affected by changes of or altered practices in relation to applicable accounting rules. For example, IFRS 9 and IFRS 15 came in to force in January 2018 and IFRS 16 came into force in January 2019, and these standards are all applicable to the Group. This could result in uncertainty regarding the Group's accounting, financial reporting and internal control.

The Group's accounting, financial reporting and internal control are conducted in accordance with the Group's interpretation of the currently applicable accounting rules, and there is a risk that the Group's interpretation of such rules is incorrect. There is also a risk that changes to applicable accounting rules or an altered application of the now applicable accounting rules could affect the Group's financial result, balance sheet and equity. The Company considers the probability of the risk occurring to be low. If the risk were to occur, the Company considers the potential negative impact to be medium.

Accounting in accordance with IFRS and generally accepted accounting principles require the management to make assumptions. Assets and liabilities, income, costs and additional information accounted for are affected by assessments and assumptions. The actual outcome may however differ from the assessments and assumptions made. At the time of an acquisition or sale of a property by the Group, different assessments and assumptions may be made, for instance regarding the probability of changes to zoning plans, obtaining of building permits or that an additional purchase price will be payable, and changes to such factors could affect the Group's earnings and financial position, inter alia due to changes to the value of the Group's properties. The Company considers the probability of incorrect assessments and assumptions to be low. If the risk were to occur, the Company considers the potential negative impact to be low.

Financial risks related to Genova

Financial covenants

The Group finances its operations by way of interest bearing loans from credit institutions as well as the capital markets, by way of bond loan financing. As per 30 September 2025, the Group's total outstanding interest bearing debt amounted to SEK 6,409 million. The Group's interest bearing debt to credit institutions is secured by mortgages and pledges over properties, promissory notes (within the Group) and shares in subsidiaries and by parent company guarantees. Certain Group companies have also issued guarantees for loans taken by tenant owned associations in relation to their acquisition of development projects from the Group.

Some of the Group's financing agreements include financial covenants. The financial covenants in such agreements are, at least in the short term, negatively affected when the Group acquires properties financed with loans from external creditors or in the event of value deterioration of the Group's properties. Should the Group fail to meet any financial covenants in the relevant loan agreements, it could result in the Group's loans, including the Company's bond loans, which contain cross-default provisions, being terminated prior to maturity and pledges or guarantee commitments being enforced, which could have a material adverse effect on the Group's operations and financial position, which in turn would lead to increased costs and/or a decrease in the Group's liquidity. Certain of the Group's loan agreements provide that the lender may terminate the agreements in the event of a change of control event occurring or in case the relevant security provided would become deteriorated, the Group is, among other things, subject to financial covenants in relation to its equity ratio and net debt to property value ratio. Consequently, deterioration of the property market (see risk factors "*Macroeconomic factors*" and "*Changes to the value of the Group's properties*" above) could result in the Group failing to meet its financial covenants, which in turn could result in the Group's loan agreements being terminated and/or any security being enforced, which would adversely affect the Company's operations and financial position. The Company considers the probability of the risk occurring to be medium. If the risk were to occur, the Company considers the potential negative impact to be high.

Financing and liquidity risks

The Group's operations are mainly financed by interest bearing debt. As per 30 September 2025, the Group's total outstanding interest bearing debt amounted to approximately SEK 6,409 million. As per 30 September 2025, the average interest rate amounted to 4.86 per cent. (excluding the Company's construction loans; and including such construction loans, 4.76 per cent.). Part of the Group's operations consists of project development, which may be delayed or suffer from unexpected or increased costs due to factors which may be outside of the Group's control, which may in turn cause that projects are not completed before the loans fall due, or that such increased costs are not covered by existing loan agreements. In case the Company is unable to obtain new financing or refinance existing facilities, or is only able to obtain such financing on unfavourable terms, it could, among other things, lead to increased costs and lower revenues and have a material negative effect on the Group's operations in general. The Company considers the probability of the risk of not being able to obtain new financing or refinance existing facilities to be low, however, the probability significantly increases in the event of a material deterioration of the macroeconomic development or a decrease in value of the Group's properties. If the risk occurs and the Company is not able to obtain new financing or refinance existing facilities, the Company considers the potential negative impact to be high.

The Group's credit facility is subject to conditions consisting of a number of financial ratios and a number of non-financial ratios. The financial ratios include the loan-to-value ratio and the interest-coverage ratio. In the event that access to current financing changes (see risk factor "*Dependence on available financing alternatives*" above) and/or the macroeconomic conditions otherwise change in a way that affects the Group's results, financial position and cash flows (see risk factor "*Macroeconomic factors*" above), it could adversely affect the Group's liquidity, which could lead to a working capital deficit in the Group. The company considers that the probability of the risk occurring is low. If the risk should occur, the Company considers that the potential negative impact is high.

Interest expense risks

The Group is financed mainly through interest bearing debt in addition to equity. Interest expenses are among the main cost items for the Group, amounting to approximately SEK 266.0 million for the financial year 2024. The interest expenses are mainly affected by the, from time to time, current interest rate levels. Interest rate expenses are affected by, besides the volume of interest bearing debt, the level of current market interest rates, the credit institutions' margins and the Group's strategy regarding interest rate fixation. As per 30 September 2025, the

Group's average interest rate amounted to of 4.76 per cent. (excluding the Company's construction loans; and including such construction loans, 4.86 per cent.).

The market interest rates are mainly affected by the expected inflation rate. The short interest rates in Sweden, such as three months STIBOR, which currently constitutes the basis for determining the interest in a majority of the Group's loan agreements as per 30 September 2025 (see, however, for further discussion the risk factor "*Interest rate risks and benchmarks*" below), is mainly affected by the Swedish National Bank's (Sw. *Riksbanken*) repo rate (Sw. *styrränta*), which is a monetary policy steering mechanism. If the inflation is expected to increase, the repo rate is expected to increase and vice versa. If the interest costs would increase by 1 percentage, the Group's interest costs would increase with approximately SEK 63 million. The larger the share of the Group's interest bearing loans covered by interest rate fixation and the longer such interest rate fixation periods, the longer time before a change in the base interest rate would affect the Group's interest expenses. Increased interest rates and increased interest expenses could lead to changes in fair market values, changes in cash flows and fluctuations in the Group's results. The Company considers the probability of any of the risks occurring to be medium. If any of the risks were to occur, the Company considers the potential negative impact to be medium.

Credit risk

The Group's existing and future counterparties, including its tenants, could enter into a financial position where they are unable to pay agreed rents on time or are otherwise unable to fulfil their obligations pursuant to tenancy agreements entered into. There is also a risk that the Group's counterparties, including tenant-owner associations, refrain from fulfilling its payment obligations in accordance with any preliminary sales agreements in relation to the Group's properties. These preliminary agreements are binding according to the Swedish Tenant-Owners Act (Sw. *bostadsrättslagen (1991:614)*), but it cannot be ruled out that parties of such preliminary agreements, when a condominium is to be signed, are unable to pay the contribution in accordance with the terms of the preliminary agreement or otherwise do not fulfil their obligations pursuant to such agreement, which ultimately may affect the warranties provided by the Group in relation to the relevant tenant-owner association (see risk factor "*Risks related to acquisitions, disposals and other transaction-related risks*" above). The Group has also entered into, and may enter into in the future, preliminary agreements concerning properties that have not yet been completed. If counterparties do not adhere to such preliminary agreements, the Group may not be fully reimbursed in case of the counterparty's failure to enter into a rental agreement in accordance with the preliminary agreement. The ability of the Group's counterparties to fulfil agreements vis-à-vis the Group is also affected by the prevailing macroeconomic environment (see risk factor "*Macroeconomic factors*" above), which could adversely affect the Group's liquidity and decrease its working capital. The Company considers the probability of the risk occurring to be low. In the event that a single counterparty is unable to fulfil its commitments vis-à-vis the Group, the Company considers the potential negative impact to be low. However, the potential negative impact increases to high in the event that several counterparties fail to fulfil its obligations. The Company considers the probability of the above risks occurring to be low but that the probability significantly increases in the event of a materially deteriorated macroeconomic development.

RISK FACTORS SPECIFIC AND MATERIAL TO THE BONDS

Risks related to the nature of the Bonds

Unsecured obligations and structural subordination

The Bonds constitute unsecured debt obligations of the Company. If the Company will be subject to any foreclosure, dissolution, winding-up, liquidation, bankruptcy or other insolvency proceedings, the holders of Bonds normally receive payment after any prioritised creditors, including those which are mandatorily preferred by law, have been paid in full. Further, following prioritised creditors receiving payment in full, the holders of

Bonds will have an unsecured claim against the Company for the amounts due under or in respect of the Bonds, which means that the holders of Bonds normally would receive payment pro rata with other unsecured creditors.

The Group has, as part of its financing, incurred debts to credit institutions and other lenders, and security over e.g. property owning Group companies and certain properties in form of share pledges and pledges over mortgage certificates has been provided in relation thereto. Such secured loans normally constitute a preferential claim on the relevant Group company. Subject to the provisions set out in the terms and conditions for the Bonds (the “**Terms and Conditions**”), the Company or any Group company may seek further financing in which case further pledges, as part of such new loans, may be provided. In addition, the Company may retain, provide or renew security over certain of its current or future assets to secure, inter alia, bank loans, either via the Company itself or any other Group company, with security interests normally constituting a preferential claim on the borrower. No present or future shareholder or subsidiary of the Issuer will guarantee the Company’s obligations under the Bonds.

Furthermore, the Terms and Conditions allow the Group to incur certain additional debt. If the Company’s subsidiaries incur debt, the right to payment under the Bonds will be structurally subordinated to the right of payment relating to debt incurred by subsidiaries of the Company, which could have a negative impact on the holders’ of Bonds recovery under the Bonds.

The Company considers that the probability of the risk occurring is low. If the risks would materialise, the Company considers the potential negative impact to be high.

Dependence on subsidiaries and joint ventures

A significant part of the Group’s assets and revenues relate to the Company’s subsidiaries and joint ventures. Accordingly, the Company is dependent upon receipt of sufficient income related to the operation of and the ownership in such entities to enable it to make payments under the Bonds. The Company’s subsidiaries and joint ventures are legally separate and distinct from the Company and have no obligation to pay amounts due with respect to the Company’s obligations and commitments, including the Bonds, or to make funds available for such payments. The ability of the Company’s subsidiaries and joint ventures to make such payments to the Company is subject to, among other things, the availability of funds.

Should the value of the business conducted in the subsidiaries or the associated companies decrease, and/or should the Company not receive sufficient income from its subsidiaries and associated companies, an investor’s ability to receive payment under the Terms and Conditions may be adversely affected. The Company considers the probability of the risk occurring to be low. If the risk were to occur, the Company considers the potential negative impact to be high.

Risks related to the labelling of the Green Bonds

The Company intends to use an amount equal to the net proceeds of the issue of the Bonds in accordance with the Company’s green finance framework (the “**Green Finance Framework**”). However, there is currently no unequivocal definition of, legal or otherwise, or market consensus as to what constitutes a “green” or an equivalently-labelled project. Accordingly, there is a risk that any projects, asset or uses defined in the Green Finance Framework will not meet current or future investor expectations regarding such “green” or other equivalently-labelled performance objectives, in particular as future developments or legal requirements as to the definitions of “green”, whether according to applicable law or regulations or by such investor’s own by-laws, other governing rules or investment portfolio mandates, may change. Should the Bonds no longer be defined as “green” Bonds, or such term be developed in the future, the Group’s green eligible assets may not reflect these developments.

There is a risk that the net proceeds from the Bonds can only partially, if at all, be used to finance or refinance projects that fulfil the conditions under the Green Finance Framework due to circumstances beyond the Group's control. For example, according to the Green Finance Framework the net proceeds from the Bonds may be applied towards among other things on-shore wind power, and there is a risk that the Group does not receive the necessary permits or that the Group cannot build new, or maintain its current, wind turbines on financially reasonable terms. Any part of the net proceeds from the Bonds which is not used to finance or re-finance such green eligible assets will regardless bear interest and result in higher finance costs for the Company. Should any projects which have been financed with the net proceeds from the Bonds only partially, if at all, achieve the environmental benefits that motivated the investments in the Bonds, the Company's reputation may deteriorate and may also be in conflict with the purpose of the investment in the Bonds.

A failure by the Company to apply the net proceeds of the Bonds in accordance with the Green Finance Framework does not give the investor a right to require that the Company shall repurchase or redeem any of their Bonds. Should the Company fail to apply the net proceeds in accordance with the Green Finance Framework, there is a risk that investors consequently would be in breach of any investment criteria, mandates or guidelines with which an investor is required to comply with and could result in remedies under the relevant investment criteria, mandates or guidelines, which could result in investors facing, *inter alia*, claims or reputational damages. Further, no Event of Default under the Terms and Conditions will occur should the Bonds no longer be defined as "green" Bonds. The relevant holders of Bonds are in such case not entitled to early repayment or repurchase of Bonds or other compensation, which may result in the value of such Bonds decreasing.

The European Commission has adopted the taxonomy regulation (Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment) which entered into force in full on 1 January 2023 (the "**Taxonomy Regulation**"). The Taxonomy Regulation entails stricter requirements in terms of assessing sustainable investments. The Taxonomy Regulation may affect the assessment of whether the Bonds are "green", and the Issuer's non-compliance with the requirements under the Taxonomy Regulation may cause the Bonds ceasing to be defined as "green". Due to the rapidly changing market conditions for green securities, there is a risk that current or future investor expectations will not be met which could negatively affect the secondary trading of the Bonds. Furthermore, should such market conditions significantly change, there is a risk that an investor of the Bonds cannot trade its Bonds at attractive terms, or at all, or that any possession of Bonds is connected to reputational damage.

The Company considers that the probability of the Company facing adverse effects relating to the labelling of the Bonds as "green" is low. If the risk were to occur, the Company considers the potential negative impact to be high.

Interest rate risks and benchmarks

The Bonds' value depends on several factors, one of the more significant over time being the level of market interest. The Bonds will bear a floating rate interest comprising a base rate such as STIBOR plus a certain margin and the interest rate is therefore adjusted for changes in the level of the general interest rate. Hence, there is a risk that increased general interest rate levels significantly affect the market value of the Bonds.

The determining interest rate benchmarks, such as STIBOR has been subject to regulatory changes such as the Benchmarks Regulation (Regulation (EU) 2016/1011 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds) (the "**BMR**"). The implementation of the BMR has led to that certain used benchmarks, such as LIBOR and EURIBOR will be discontinued, leading to that, among other things, existing financing arrangements will have to be renegotiated or terminated. There is a risk that also STIBOR will be discontinued, or that alternative benchmark rates will dominate market practice, leading

to uncertainties in relation to the interest rate payable in relation to the Bonds. In accordance with the Terms and Conditions, STIBOR may be replaced following certain events, e.g. if STIBOR ceases to be calculated or administrated (defined in the terms and conditions of the Bonds as a “**Base Rate Event**”). Increased or altered regulatory requirements and risks associated with any replacement of STIBOR following a Base Rate Event involve inherent risks, as the effects cannot be fully assessed at this point in time. Any upcoming replacement of STIBOR and/or other developments in relation to STIBOR could result in volatility in STIBOR and the calculation of the interest rate of the Bonds, which in turn could result in an adverse negative effect on an investment in the Bonds.

The Company considers that the probability of the above risks occurring is medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

Conflict of interests

The chairman of the board of Genova is also the partner in charge at the law firm that assists with the issue of the Bonds, including due diligence and risk factors, which could give rise to conflicts of interest. The Company considers that the probability of the above risks occurring is low. If the risk would materialise, the Company considers the potential negative impact to be low.

Risks related to the holders’ of Bonds rights and representation

The agent’s right to represent holders of Bonds in formal proceedings in Sweden (such as bankruptcies, company reorganisations or upon enforcement of security) has recently been questioned and there has been a case where a court has held that such right does not exist, meaning that the holders of Bonds, through the agent, were unable to take actions against the issuer. Although the relevant case law on this subject is, as of now, non-precedential, if such judgments should continue to be upheld by the justice system and/or if the regulators should not intervene and include the agent’s right to represent holders of Bonds in relevant legislation, it may become more difficult for holders of Bonds to protect their rights under the terms of the Bonds in formal court proceedings. The Company considers that the probability of the above risks occurring is low. If the risks would materialise, the Company considers the potential negative impact to be high.

The Issuer has committed to, on a best-effort basis, allocate the net proceeds from any issue of Green Bonds to Green Eligible Assets within 12 months from the relevant issue date of the Green Bonds. Any unallocated proceeds may temporarily be placed on the Issuer’s ordinary bank account.

16.10. Termination

- 16.10.1. If an Event of Default has occurred and is continuing, the Agent is entitled to, and shall following a demand in writing from a Bondholder (or Bondholders) representing more than (50.00) per cent. of the Adjusted Nominal Amount (such demand shall, if made by several Bondholders, be made by them jointly) or following an instruction or decision pursuant to Clause 16.10.3 or 16.10.5, on behalf of the Bondholders, by notice to the Issuer terminate the Bonds and to declare all, but not some only, of the Bonds due for payment immediately or at such later date as the Agent determines (such later date not falling later than twenty (20) Business Days from the date on which the Agent made such declaration) and exercise any or all of its rights, remedies, powers and discretions under the Finance Documents.
- 16.10.2. The Agent may not terminate the Bonds in accordance with Clause 16.10.1 by reference to a specific Event of Default if it is no longer continuing or if it has been decided, in accordance with these Terms and Conditions, to waive such Event of Default (temporarily or permanently). However, if a moratorium occurs, the ending of that moratorium will not prevent termination for payment prematurely on the grounds mentioned under Clause 16.10.1.
- 16.10.3. The Agent shall notify the Bondholders of an Event of Default within five (5) Business Days of the date on which the Agent received notice of or gained actual knowledge of that an Event of Default has occurred and is continuing. Notwithstanding the aforesaid, the Agent may postpone a notification of an Event of Default (other than in relation to Clause 16.1 (*Non-payment*)) up until the time stipulated in Clause 16.10.4 for as long as, in the reasonable opinion of the Agent such postponement is in the interests of the Bondholders as a group. The Agent shall always be entitled to take the time necessary to determine whether an event constitutes an Event of Default.
- 16.10.4. The Agent shall, within twenty (20) Business Days of the date on which the Agent received notice of or otherwise gained actual knowledge of that an Event of Default has occurred and is continuing, decide if the Bonds shall be so terminated. If the Agent has decided not to terminate the Bonds, the Agent shall, at the earliest possible date, notify the Bondholders that there exists a right of termination and obtain instructions from the Bondholders according to the provisions in Clause 17 (*Decisions by Bondholders*). If the Bondholders vote in favour of termination and instruct the Agent to terminate the Bonds, the Agent shall promptly declare the Bonds terminated. However, if the cause for termination according to the Agent's appraisal has ceased before the termination, the Agent shall not terminate the Bonds. The Agent shall in such case, at the earliest possible date, notify the Bondholders that the cause for termination has ceased. The Agent shall always be entitled to take the time necessary to consider whether an occurred event constitutes an Event of Default.
- 16.10.5. If the Bondholders, without any prior initiative to decision from the Agent or the Issuer, have made a decision regarding termination in accordance with Clause 17 (*Decisions by Bondholders*), the Agent shall promptly declare the Bonds terminated. The Agent is however

not liable to take action if the Agent considers cause for termination not to be at hand, unless the instructing Bondholders agree in writing to indemnify and hold the Agent harmless from any loss or liability and, if requested by the Agent in its discretion, grant sufficient security for such indemnity.

16.10.6. If the Bonds are declared due and payable in accordance with the provisions in this Clause 16, the Agent shall take every reasonable measure necessary to recover the amounts outstanding under the Bonds.

16.10.7. If the right to terminate the Bonds is based upon a decision of a court of law, an arbitral tribunal or a government authority, it is not necessary that the decision has become enforceable under any applicable regulation or that the period of appeal has expired in order for cause of termination to be deemed to exist.

16.10.8. For the avoidance of doubt, the Bonds cannot be terminated and become due for payment prematurely according to this Clause 16 without relevant decision by the Agent or following instructions from the Bondholders' pursuant to Clause 17 (*Decisions by Bondholders*).

16.10.9. If the Bonds are declared due and payable in accordance with this Clause 16, the Issuer shall redeem all Bonds with an amount per Bond equal to the applicable Call Option Amount for the relevant period (plus accrued but unpaid Interest), but shall up until the First Call Date be the price set out in paragraph (b) of the definition of Call Option Amount, together with accrued but unpaid interest.

16.11. **Distribution of proceeds**

(a) *firstly*, in or towards payment *pro rata* of:

- (i) all unpaid fees, costs, expenses and indemnities payable by the Issuer to the Agent in accordance with the Agency Agreement and the Finance Documents (other than any indemnity given for liability against the Bondholders);
- (ii) other costs, expenses and indemnities relating to the acceleration of the Bonds or the protection of the Bondholders' rights under the Finance Documents;
- (iii) any non-reimbursed costs incurred by the Agent for external experts under the Finance Documents; and
- (iv) any non-reimbursed costs and expenses incurred by the Agent in relation to a Bondholders' Meeting or a Written Procedure;

(b) *secondly*, in or towards payment *pro rata* of accrued but unpaid interest under the Bonds (interest due on an earlier Interest Payment Date to be paid before any interest due on a later Interest Payment Date);

(c) *thirdly*, in or towards payment *pro rata* of any unpaid principal under the Bonds; and

- (d) *fourthly*, in or towards payment *pro rata* of any other costs or outstanding amounts unpaid under the Finance Documents, including any default interest.

Any excess funds after the application of proceeds in accordance with paragraphs (a) to (d) above shall be paid to the Issuer. The application of proceeds in accordance with paragraphs (a) to (d) above shall, however, not restrict a Bondholders' Meeting or a Written Procedure from resolving that accrued Interest (whether overdue or not) shall be reduced without a corresponding reduction of principal.

- 16.11.2. If a Bondholder or another party has paid any fees, costs, expenses or indemnities referred to in Clause 16.11.1, such Bondholder or other party shall be entitled to reimbursement by way of a corresponding distribution in accordance with Clause 16.11.1.

Funds that the Agent or a Bondholder receives (directly or indirectly) in connection with the termination of the Bonds constitute escrow funds (Sw. *redovisningsmedel*) according to the Escrow Funds Act (Sw. *lag (1944:181) om redovisningsmedel*) and must be held on a separate bank account on behalf of the Bondholders and the other interested parties. The Agent shall arrange for payments of such funds in accordance with this Clause 16.11 as soon as reasonably practicable.

- 16.11.3. If the Issuer or the Agent shall make any payment under this Clause 16.11, the Issuer or the Agent, as applicable, shall notify the Bondholders of any such payment at least ten (10) Business Days before the payment is made. Such notice shall specify the Record Date, the payment date and the amount to be paid. Notwithstanding the foregoing, for any Interest due but unpaid the Record Date specified in Clause 10.1 shall apply.

17. DECISIONS BY BONDHOLDERS

17.1. Request for a decision

Any request from the Issuer or a Bondholder (or Bondholders) representing at least ten (10.00) per cent. of the Adjusted Nominal Amount (such request shall, if made by several Bondholders, be made by them jointly) for a decision by the Bondholders on a matter relating to the Finance Documents shall be directed to the Agent and dealt with at a Bondholders' Meeting or by way of a Written Procedure, as determined by the Agent. The Person requesting the decision may suggest the form for decision making, but if it is in the Agent's opinion more appropriate that a matter is dealt with at a Bondholders' Meeting than by way of a Written Procedure, it shall be dealt with at a Bondholders' Meeting.
- 17.1.3. The Agent may refrain from convening a Bondholders' Meeting or instigating a Written Procedure if the suggested decision must be approved by any Person in addition to the Bondholders and such Person has informed the Agent that an approval will not be given or the suggested decision is not in accordance with applicable regulations.

- 17.1.4. The Agent shall not be responsible for the content of a notice for a Bondholders' Meeting or a communication regarding a Written Procedure unless and to the extent it contains information provided by the Agent.
- 17.1.5. Should the Agent not convene a Bondholders' Meeting or instigate a Written Procedure in accordance with these Terms and Conditions, without Clause 17.1.3 being applicable, the Issuer or the Bondholder(s) requesting a decision by the Bondholders may convene such Bondholders' Meeting or instigate such Written Procedure, as the case may be, instead. The Issuer and/or the Issuing Agent shall upon request by the convening Bondholder(s) provide such Bondholder(s) with the information available in the Debt Register in order to convene and hold the Bondholders' Meeting or instigate and carry out the Written Procedure, as the case may be. The Issuer or Bondholder(s), as applicable, shall supply to the Agent a copy of the dispatched notice or communication.
- 17.1.6. Should the Issuer want to replace the Agent, it may convene a Bondholders' Meeting in accordance with Clause 17.2.1 or instigate a Written Procedure by sending communication in accordance with Clause 17.3.1. After a request from the Bondholders pursuant to Clause 20.4.3, the Issuer shall no later than five (5) Business Days after receipt of such request (or such later date as may be necessary for technical or administrative reasons) convene a Bondholders' Meeting in accordance with Clause 17.2.1. The Issuer shall inform the Agent before a notice for a Bondholders' Meeting or communication relating to a Written Procedure where the Agent is proposed to be replaced is sent and supply to the Agent a copy of the dispatched notice or communication.

- 17.4.9. The Issuer may not, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any owner of Bonds (irrespective of whether such person is a Bondholder) for or as inducement to any consent under these Terms and Conditions, unless such consideration is offered to all Bondholders that vote in respect of the proposal at the relevant Bondholders' Meeting or in a Written Procedure within the time period stipulated for the consideration to be payable or the time period for replies in the Written Procedure, as the case may be.

- 17.4.10. A matter decided at a duly convened and held Bondholders' Meeting or by way of Written Procedure is binding on all Bondholders, irrespective of them being present or represented at the Bondholders' Meeting or responding in the Written Procedure. The Bondholders that have not adopted or voted for a decision shall not be liable for any damages that this may cause the Issuer or other Bondholders.
- 17.4.11. All costs and expenses incurred by the Issuer or the Agent for the purpose of convening a Bondholders' Meeting or for the purpose of carrying out a Written Procedure, including reasonable fees to the Agent, shall be paid by the Issuer.

The minutes from the relevant Bondholders' Meeting or Written Procedure shall at the request of a Bondholder be sent to it by the Issuer or the Agent, as applicable.

18. AMENDMENTS AND WAIVERS

18.1. Amendments and waivers

- 18.1.1. No delay or omission of the Agent or of any Bondholder to exercise any right or remedy under the Finance Documents shall impair or operate as a waiver of any such right or remedy.
- 18.1.2. The Issuer (or, if applicable, any other relevant Group Company) and the Agent (acting on behalf of the Bondholders) may agree in writing to amend the Finance Documents or waive any provision in the Finance Documents (or any other document relating to the Bonds), provided that the Agent is satisfied that such amendment or waiver:
- (a) is not detrimental to the interest of the Bondholders (as a group);
 - (b) is made solely for the purpose of rectifying obvious errors and mistakes;
 - (c) is required by applicable regulation, a court ruling or a decision by a relevant authority;
 - (d) is necessary for the purpose of having the Bonds admitted to trading on the sustainable bond list of Nasdaq Stockholm (or any other Regulated Market, or MTF as applicable), provided that such amendment or waiver does not materially adversely affect the rights of the Bondholders;
 - (e) is made pursuant to Clause 19 (*Replacement of Base Rate*); or

- (f) has been duly approved by the Bondholders in accordance with Clause 17 (*Decisions by Bondholders*) and it has received any conditions precedent specified for the effectiveness of the approval by the Bondholders.
- 18.1.3. The consent of the Bondholders is not necessary to approve the particular form of any amendment or waiver to the Finance Documents. It is sufficient if such consent approves the substance of the amendment or waiver.
 - 18.1.4. The Agent shall promptly notify the Bondholders of any amendments or waivers made in accordance with Clause 18.1, setting out the date from which the amendment or waiver will be effective, and ensure that any amendments to these Terms and Conditions are available on the websites of the Issuer and the Agent. The Issuer shall ensure that any amendments to these Terms and Conditions are duly registered with the CSD and each other relevant organisation or authority.
 - 18.1.5. An amendment or waiver to the Finance Documents shall take effect on the date determined by the Bondholders' Meeting, in the Written Procedure or by the Agent, as the case may be.
- 18.2. **Defeasance**
- 18.2.1. In addition to Clause 18.1, in connection with a full redemption of all outstanding Bonds and subject to the terms in this Clause 18.2, the Agent may agree in writing to waive any or all provisions in the Finance Documents. Any waiver provided in accordance with this Clause 18.2 may be made at the Agent's sole discretion (acting on behalf of the Bondholders) without having to obtain the consent of the Bondholders to the extent any such waiver would not have a Material Adverse Effect and provided that:
 - (a) the Bonds may be redeemed in full at the sole discretion of the Issuer in accordance with the Finance Documents on any Business Day on or after the date on which the waiver becomes effective;
 - (b) the Issuer undertakes to redeem all outstanding Bonds in full no later than on a Business Day falling within three (3) months (the "**Defeasance Redemption Date**") from the date on which the waiver becomes effective;
 - (c) at the latest on the date on which the waiver becomes effective, an amount corresponding to the total nominal amount outstanding under the Bonds as well as any applicable Call Option Amount and, any accrued but unpaid Interest and any other amounts due to be paid to the Agent and/or the Bondholders under or in respect of the Finance Document up to and including the relevant Redemption Date (or if such Redemption Date is not specified, up to and including the Defeasance Redemption Date) is transferred to a pledged account held by the Issuer with a reputable Swedish bank subject to duly perfected first ranking security in favour of the Agent and the Bondholders;
 - (d) the Agent may require such further terms, conditions and statements before the effectiveness of the waiver as the Agent may reasonably require; and
 - (e) the Issuer undertakes to not issue any Subsequent Bonds following the effectiveness of the waiver.

18.2.2. Notwithstanding the above, any waiver provided by the Agent will not affect:

- (a) the terms of Clause 2 (*Status of the Bonds*), Clause 16.11 (*Distribution of proceeds*), the principal amount, premiums in connection with redemption or repurchase of any Bonds, Interest Rate or Interest which shall be paid by the Issuer, any payment day for principal amount or Interest, waive any breach of a payment undertaking, or the provisions in Clauses 17.4.2 and 17.4.3; or
- (b) the Issuer's obligations under Clause 15.12 (*Compliance with laws*), Clause 15.2 (*Admission to trading*), Clause 15.13 (*Undertakings relating to the Agency Agreement*), or Clause 15.14 (*CSD related undertakings*) or, to the extent such provisions relate to the Issuer, the Agent's and the Bondholders' rights to terminate the Bonds pursuant to Clause 16.1 (*Non-payment*), Clause 16.6 (*Insolvency proceedings*), Clause 16.5 (*Insolvency*), Clause 16.7 (*Creditors' process*) or paragraph (h) (*Merger and demergers*) of Clause 16 (*Termination of the Bonds*).

18.2.3. Redemption of all Bonds in accordance with this Clause 18.2 shall be made by the Issuer giving notice to the Bondholders in accordance with Clause 12.3 (*Voluntary total redemption (call option)*), but such notice may not contain any conditions precedent following the effectiveness of the waiver.

19. REPLACEMENT OF BASE RATE

19.1. General

19.1.1. Any determination or election to be made by an Independent Adviser, the Issuer or the Bondholders in accordance with the provisions of this Clause 19 shall at all times be made by such Independent Adviser, the Issuer or the Bondholders (as applicable) acting in good faith, in a commercially reasonable manner and by reference to relevant market data.

19.1.2. If a Base Rate Event has occurred, this Clause 19 shall take precedent over the fallbacks set out in paragraph (b) to (d) of the definition of STIBOR.

19.2. Definitions

In this Clause 19:

“Adjustment Spread” means a spread (which may be positive, negative or zero) or a formula or methodology for calculating a spread, or a combination thereof to be applied to a Successor Base Rate and that is:

- (a) formally recommended by any Relevant Nominating Body in relation to the replacement of the Base Rate; or
- (b) if (a) is not applicable, the adjustment spread that the Independent Adviser determines is reasonable to use in order to eliminate, to the extent possible, any transfer of economic value from one party to another as a result of a replacement of the Base Rate and is customarily applied in comparable debt capital market transactions.

“Base Rate Administrator” means Swedish Financial Benchmark Facility AB (SFBF) in relation to STIBOR or any person replacing it as administrator of the Base Rate.

“Base Rate Amendments” has the meaning set forth in Clause 19.3.4.

“Base Rate Event” means one or several of the following circumstances:

- (a) the Base Rate (for the relevant Interest Period) has ceased to exist or ceased to be published for at least five (5) consecutive Business Days as a result of the Base Rate (for the relevant Interest Period) ceasing to be calculated or administered;
- (b) a public statement or publication of information by (i) the supervisor of the Base Rate Administrator or (ii) the Base Rate Administrator that the Base Rate Administrator ceases to provide the applicable Base Rate (for the relevant Interest Period) permanently or indefinitely and, at the time of the statement or publication, no successor administrator has been appointed or is expected to be appointed to continue to provide the Base Rate;
- (c) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator that the Base Rate (for the relevant Interest Period) is no longer representative of the underlying market which the Base Rate is intended to represent and the representativeness of the Base Rate will not be restored in the opinion of the supervisor of the Base Rate Administrator;
- (d) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator with the consequence that it is unlawful for the Issuer or the Issuing Agent to calculate any payments due to be made to any Bondholder using the applicable Base Rate (for the relevant Interest Period) or it has otherwise become prohibited to use the applicable Base Rate (for the relevant Interest Period);
- (e) a public statement or publication of information in each case by the bankruptcy trustee of the Base Rate Administrator or by the trustee under the bank recovery and resolution framework (Sw. *krishanteringsregelverket*) containing the information referred to in (b) above; or
- (f) a Base Rate Event Announcement has been made and the announced Base Rate Event as set out in (b) to (e) above will occur within six (6) months.

“Base Rate Event Announcement” means a public statement or published information as set out in paragraph (b) to (e) of the definition of Base Rate Event that any event or circumstance specified therein will occur.

“Independent Adviser” means an independent financial institution or adviser of repute in the debt capital markets where the Base Rate is commonly used.

“Relevant Nominating Body” means, subject to applicable law, firstly any relevant supervisory authority, secondly any applicable central bank, or any working group or committee of any of them, or thirdly the Financial Stability Council (Sw. *Finansiella stabilitetsrådet*) or any part thereof.

“Successor Base Rate” means:

- (a) a screen or benchmark rate, including the methodology for calculating term structure and calculation methods in respect of debt instruments with similar interest rate terms

as the Bonds, which is formally recommended as a successor to or replacement of the Base Rate by a Relevant Nominating Body; or

- (b) if there is no such rate as described in paragraph (a), such other rate as the Independent Adviser determines is most comparable to the Base Rate.

For the avoidance of doubt, in the event that a Successor Base Rate ceases to exist, this definition shall apply mutatis mutandis to such new Successor Base Rate.

19.3. **Determination of Base Rate, Adjustment Spread and Base Rate Amendments**

- 19.3.1. Without prejudice to Clause 19.3.2, upon a Base Rate Event Announcement, the Issuer may, if it is possible to determine a Successor Base Rate at such point of time, at any time before the occurrence of the relevant Base Rate Event at the Issuer's expense appoint an Independent Adviser to initiate the procedure to determine a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating and finally deciding the applicable Base Rate. For the avoidance of doubt, the Issuer will not be obliged to take any such actions until obliged to do so pursuant to Clause 19.3.2.
- 19.3.2. If a Base Rate Event has occurred, the Issuer shall use all commercially reasonable endeavours to, as soon as reasonably practicable and at the Issuer's expense, appoint an Independent Adviser to initiate the procedure to determine, as soon as commercially reasonable, a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating and finally deciding the applicable Base Rate.
- 19.3.3. If the Issuer fails to appoint an Independent Adviser in accordance with Clause 19.3.2, the Bondholders shall, if so decided at a Bondholders' Meeting or by way of Written Procedure, be entitled to appoint an Independent Adviser (at the Issuer's expense) for the purposes set forth in Clause 19.3.2. If an Event of Default has occurred and is continuing, or if the Issuer fails to carry out any other actions set forth in Clause 19.3 to 19.6, the Agent (acting on the instructions of the Bondholders) may to the extent necessary effectuate any Base Rate Amendments without the Issuer's cooperation.
- 19.3.4. The Independent Adviser shall also initiate the procedure to determine any technical, administrative or operational changes required to ensure the proper operation of a Successor Base Rate or to reflect the adoption of such Successor Base Rate in a manner substantially consistent with market practice ("**Base Rate Amendments**").
- 19.3.5. Provided that a Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments have been finally decided no later than prior to the relevant Quotation Day in relation to the next succeeding Interest Period, they shall become effective with effect from and including the commencement of the next succeeding Interest Period, always subject to any technical limitations of the CSD and any calculations methods applicable to such Successor Base Rate.

19.4. **Interim measures**

- 19.4.1. If a Base Rate Event set out in any of the paragraphs (a) to (e) of the Base Rate Event definition has occurred but no Successor Base Rate and Adjustment Spread have been finally decided prior to the relevant Quotation Day in relation to the next succeeding Interest Period or if such

Successor Base Rate and Adjustment Spread have been finally decided but due to technical limitations of the CSD, cannot be applied in relation to the relevant Quotation Day, the Interest Rate applicable to the next succeeding Interest Period shall be:

- (a) if the previous Base Rate is available, determined pursuant to the terms that would apply to the determination of the Base Rate as if no Base Rate Event had occurred; or
- (b) if the previous Base Rate is no longer available or cannot be used in accordance with applicable law or regulation, equal to the Interest Rate determined for the immediately preceding Interest Period.

19.4.2. For the avoidance of doubt, Clause 19.4.1 shall apply only to the relevant next succeeding Interest Period and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustments as provided in, this Clause 19. This will however not limit the application of Clause 19.4.1 for any subsequent Interest Periods, should all relevant actions provided in this Clause 19 have been taken, but without success.

19.5. **Notices etc.**

Prior to the Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments become effective the Issuer shall promptly, following the final decision by the Independent Adviser of any Successor Base Rate, Adjustment Spread and any Base Rate Amendments, give notice thereof to the Agent, the Issuing Agent and the Bondholders in accordance with Clause 25 (*Notices and press releases*) and the CSD. The notice shall also include information about the effective date of the amendments. If the Bonds are admitted to trading on a stock exchange, the Issuer shall also give notice of the amendments to the relevant stock exchange.

19.6. **Variation upon replacement of Base Rate**

19.6.1. No later than giving the Agent notice pursuant to Clause 19.5, the Issuer shall deliver to the Agent a certificate signed by the Independent Adviser and the CEO, CFO or any other duly authorised signatory of the Issuer (subject to Clause 19.3.3) confirming the relevant Successor Base Rate, the Adjustment Spread and any Base Rate Amendments, in each case as determined and decided in accordance with the provisions of this Clause 19. The Successor Base Rate, the Adjustment Spread and any Base Rate Amendments (as applicable) specified in such certificate will, in the absence of manifest error or bad faith in any decision, be binding on the Issuer, the Agent, the Issuing Agent and the Bondholders.

19.6.2. Subject to receipt by the Agent of the certificate referred to in Clause 19.6.1, the Issuer and the Agent shall, at the request and expense of the Issuer, without the requirement for any consent or approval of the Bondholders, without undue delay effect such amendments to the Finance Documents as may be required by the Issuer in order to give effect to this Clause 19.

19.6.3. The Agent and the Issuing Agent shall always be entitled to consult with external experts prior to amendments are effected pursuant to this Clause 19. Neither the Agent nor the Issuing Agent shall be obliged to concur if in the reasonable opinion of the Agent or the Issuing Agent (as applicable), doing so would impose more onerous obligations upon it or expose it to any

additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Agent or the Issuing Agent in the Finance Documents.

19.7. Limitation of liability for the Independent Adviser

Any Independent Adviser appointed pursuant to Clause 19.3 shall not be liable whatsoever for damage or loss caused by any determination, action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its gross negligence or wilful misconduct. The Independent Adviser shall never be responsible for indirect or consequential loss.

20. THE AGENT

20.1. Appointment of the Agent

- 20.1.1. By subscribing for Bonds, each initial Bondholder appoints the Agent to act as its agent in all matters relating to the Bonds and the Finance Documents, and authorises the Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these Terms and Conditions) in any legal or arbitration proceedings relating to the Bonds held by such Bondholder, including the winding-up, dissolution, liquidation, company reorganisation (Sw. *företagsrekonstruktion*) or bankruptcy (Sw. *konkurs*) (or its equivalent in any other jurisdiction) of the Issuer and in relation to any mandatory exchange of the Bonds for other securities (including, for the avoidance of doubt, a right for the Agent to subscribe for any such new securities on behalf of the relevant Bondholder).
- 20.1.2. By acquiring Bonds, each subsequent Bondholder confirms the appointment and authorisation for the Agent to act on its behalf, as set forth in Clause 20.1.1.

- 20.1.4. The Issuer shall promptly upon request provide the Agent with any documents and other assistance (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents.
- 20.1.5. The Agent is entitled to fees for all its work in such capacity and to be indemnified for costs, losses and liabilities on the terms set out in the Finance Documents and the Agent's obligations as agent under the Finance Documents are conditioned upon the due payment of such fees and indemnifications.
- 20.1.6. The Agent may act as agent, trustee and/or security agent for several issues of securities or other loans issued by or relating to the Issuer and other Group Companies notwithstanding potential conflicts of interest.

20.2. **Duties of the Agent**

- 20.2.1. The Agent shall represent the Bondholders in accordance with the Finance Documents.
- 20.2.2. When acting pursuant to the Finance Documents, the Agent is always acting with binding effect on behalf of the Bondholders. The Agent is never acting as an advisor to the Bondholders or the Issuer. Any advice or opinion from the Agent does not bind the Bondholders or the Issuer.
- 20.2.3. When acting pursuant to the Finance Documents, the Agent shall carry out its duties with reasonable care and skill in a proficient and professional manner.
- 20.2.4. The Agent shall treat all Bondholders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the Bondholders as a group and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other person, other than as explicitly stated in the Finance Documents.
- 20.2.5. The Agent is always entitled to delegate its duties to other professional parties and to engage external experts when carrying out its duties as agent, without having to first obtain any consent from the Bondholders or the Issuer. The Agent shall however remain liable for any actions of such parties if such parties are performing duties of the Agent under the Finance Documents.
- 20.2.6. The Issuer shall on demand by the Agent pay all reasonably incurred costs for external experts engaged by it:

 - (d) in connection with any amendment (whether contemplated by the Finance Documents or not) or waiver under the Finance Documents (including for the purpose of deciding whether the conditions set out in Clause 18.1 or Clause 18.2 are fulfilled).

Any compensation for damages or other recoveries received by the Agent from external experts engaged by it for the purpose of carrying out its duties under the Finance Documents shall be distributed in accordance with Clause 16.11 (*Distribution of proceeds*).

- 20.2.7. The Agent shall, as applicable, enter into agreements with the CSD, and comply with such agreement and the CSD Regulations applicable to the Agent, as may be necessary in order for the Agent to carry out its duties under the Finance Documents.

- (c) the performance, default or any breach by the Issuer or any other party of its obligations under the Finance Documents; or
- (d) whether any other event specified in any Finance Document has occurred or is expected to occur.

Should the Agent not receive such information, the Agent is entitled to assume that no such event or circumstance exists or can be expected to occur, provided that the Agent does not have actual knowledge of such event or circumstance.

- 20.2.9. The Agent shall (a) review each Compliance Certificate delivered to it to determine that it meets the requirements set out in Clause 13.3.2 and as otherwise agreed between the Issuer and the Agent and (b) verify that the Issuer according to its reporting in the Compliance Certificate meets the relevant financial covenant(s) or tests. The Issuer shall promptly upon request provide the Agent with such information as the Agent reasonably considers necessary for the purpose of being able to comply with this Clause 20.2.9.

- 20.2.13. The Agent shall give a notice to the Bondholders before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the Issuer of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or if it refrains from acting for any reason described in Clause 20.2.12.

No documents or evidence delivered in accordance with the Finance Documents are reviewed by the Agent from a legal or commercial perspective of the Bondholders.
- 20.3.2. The Agent shall never be responsible for indirect or consequential loss.
- 20.3.3. The Agent shall not be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts provided to the Agent or if the Agent has acted with reasonable care in a situation when the Agent considers that it is detrimental to the interests of the Bondholders to delay the action in order to first obtain instructions from the Bondholders.
- 20.3.4. The Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by the Agent to the Bondholders, provided that the Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the Agent for that purpose.

20.4. **Replacement of the Agent**

- 20.4.1. Subject to Clause 20.4.6, the Agent may resign by giving notice to the Issuer and the Bondholders, in which case the Bondholders shall appoint a successor Agent at a Bondholders' Meeting convened by the retiring Agent or by way of Written Procedure initiated by the retiring Agent.

- 20.4.2. Subject to Clause 20.4.6, if the Agent is insolvent or becomes subject to bankruptcy proceedings, the Agent shall be deemed to resign as Agent and the Issuer shall within ten (10) Business Days appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- 20.4.3. A Bondholder (or Bondholders) representing at least ten (10.00) per cent. of the Adjusted Nominal Amount may, by notice to the Issuer (such notice shall, if given by several Bondholders, be given by them jointly), require that a Bondholders' Meeting is held for the purpose of dismissing the Agent and appointing a new Agent. The Issuer may, at a Bondholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Bondholders that the Agent be dismissed and a new Agent appointed.
- 20.4.4. If the Bondholders have not appointed a successor Agent within ninety (90) days after:
- (a) the earlier of the notice of resignation was given or the resignation otherwise took place; or
 - (b) the Agent was dismissed through a decision by the Bondholders,
- the Issuer shall within thirty (30) days thereafter appoint a successor Agent which shall be an independent financial institution or other reputable company with the necessary resources to act as agent in respect of Market Loans.
- 20.4.5. The retiring Agent shall, at its own cost, make available to the successor Agent such documents and records and provide such assistance as the successor Agent may reasonably request for the purposes of performing its functions as Agent under the Finance Documents.
- 20.4.6. The Agent's resignation or dismissal shall only take effect upon the earlier of:
- (a) the appointment of a successor Agent and acceptance by such successor Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent; and
 - (b) the period pursuant to paragraph (b) of Clause 20.4.4 having lapsed.
- 20.4.7. Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the Finance Documents and remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Issuer and each of the Bondholders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original Agent.
- 20.4.8. In the event that there is a change of the Agent in accordance with this Clause 20.4, the Issuer shall execute such documents and take such actions as the new Agent may reasonably require for the purpose of vesting in such new Agent the rights, powers and obligation of the Agent and releasing the retiring Agent from its further obligations under the Finance Documents. Unless the Issuer and the new Agent agree otherwise, the new Agent shall be entitled to the same fees and the same indemnities as the retiring Agent.

However, if the failure to take certain actions is caused by the non-payment of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or by any reason described in Clause 20.2.12, such failure must continue for at least forty (40) Business Days after notice pursuant to Clause 20.2.13 before a Bondholder may take any action referred to in Clause 23.1.

- 23.3. The provisions of Clause 23.1 shall not in any way limit an individual Bondholder's right to claim and enforce payments which are due to it under Clause 12.4 (*Mandatory repurchase due to a Change of Control, De-listing or Listing Failure (put option)*) or other payments which are due by the Issuer to some but not all Bondholders.
