RISK FACTORS

The purpose of this section is to enable a potential investor to assess the relevant risks related to their potential investment in the Green Capital Securities in order to make an informed investment decision. The risk factors set forth below are therefore limited to risks that, in the meaning of Regulation (EU) 2017/1129, are material and specific, to Genova, the Group and the Green Capital Securities.

The manner in which the Company, the Group or the Green Capital Securities are affected by each risk factor is illustrated by way of an evaluation of the materiality of the relevant risk factor based on the probability of it occurring and the expected magnitude of its negative impact, for the purpose of which the probability is estimated as “low”, “medium” or “high” and the magnitude of negative impact if it would occur as “low”, “medium” or “high”. The most material risk factor in a category is presented first under that category, whereas subsequent risk factors in the same category are not ranked in order of materiality.

Risk factors specific and material to Genova

Risks related to the industry and the market

Changes to the value of the Group’s properties

The value of the Group’s investment properties (Sv. *förvaltningsfastigheter*) are accounted at real value in the balance sheet and any changes to the value of the properties will be accounted for in the income statement. On 31 December 2020, the Group’s property portfolio comprised a total value of SEK 5,355 million (in relation to the Group’s total assets of SEK 6,784.7 million). Property specific factors, such as lower rental levels, higher vacancy rates and higher property expenditures (see risk factors “*Rental levels and rental development*” and “*Property costs*” below), as well as market specific factors, such as interest rates (see risk factor “*Interest expense risks*” below) and higher yield demands (see risk factor “*Macroeconomic factors*” below), may lead to a decrease in value of the Group’s properties. Large decreases in property value may affect the Group’s ability to maintain financing and obtain new financing, as part of the Group’s ongoing ordinary course operations (see risk factor “*Financing and liquidity risks*” below). Given that the Group’s accounted assets mainly consist of properties, a decrease in value could give rise to a number of negative consequential effects for the Group which could have an impact on the Group’s business, results and financial position. The Company considers the probability of any of the risks occurring to be high. As valuation decreases could have a significant effect on the Group’s financial position, the Company considers the potential negative impact of any of the risks to be high.

Risks related to the outbreak of Covid-19

The outbreak of Covid-19 has led to and will continue to have a significant impact on the societies and markets where Genova operates. Genova is primarily affected indirectly, by the outbreak’s direct and indirect effects on the macroeconomic development where Genova has investment properties and carries on project development (see risk factors “*Macroeconomic factors*”, “*Rental levels and rental development*” and “*Credit risk*” below).

As Genova’s tenants are exposed to the effects of the outbreak of Covid-19, Genova may be affected by demands for reduced rental levels and increased vacancy rates (see risk factor “*Rental levels and rental development*” below) as well as increased suspension of payment with counterparties (see risk factor “*Credit risk*” below). This could have several negative consequences for Genova and its property portfolio as well as subsequent impact on the Group’s cash flow, turnover and financial position. An increased financial uncertainty, as a result of the outbreak of Covid-19, may also impair the availability

of such funding that Genova relies on to fulfil its business model (see risk factor “*Dependence on available financing alternatives*” below).

Genova is developing two planned hotels on properties in Palma de Mallorca, which will be rented by the Nobis Group. A possible negative impact on the hotel industry as a result of, for example, reduced travel and reduced tourism may have a negative impact on these leases and projects. As of 31 December 2020, there was a total of 223 hotel rooms and 35 hotel rooms under construction.

All of the above risks linked to the outbreak of Covid-19 are considered to have a high negative impact on Genova. The Company considers the probability of the above mentioned risks occurring to be high.

Dependence on available financing alternatives

Genova’s business model is based on its ability to obtain necessary financing besides equity, *i.e.* the business is to a large extent financed by loans. The access to and terms of such borrowed capital is dependent on the conditions for lending liquidity in the financial system.

In the event that a financial crisis or distressed situation occurs, and the stability of the financial system is disturbed or ceases to function, Genova’s access to financing may be significantly affected. For example, in connection with the financial crisis in 2008, the bank sector in Europe suffered a lack of liquidity, since the access to borrowed capital was deteriorated, which in turn led to a deterioration of the access to and the terms of bank loans and initially also increased the credit margins and so the interest rates. Thus, in the event of a new financial crisis or distressed situation, there could be difficulties for Genova in incurring new loans or refinancing existing loans, which would affect Genova’s possibility to act in accordance with its business model. This would affect the Company’s operations and results.

The Company considers the probability of a financing risk as per the above occurring to be low. If the risk would materialise, the Company considers the potential negative impact to be high.

Macroeconomic factors

The Company’s business is to a large extent affected by macroeconomic factors such as the general state of the economy, national and regional economic developments, the developments in employment rate, production of new residential condominiums and premises, infrastructural development, population growth, demographic developments, inflation and interest rates. The Group operates mainly within the region of greater Stockholm and Uppsala, and is consequently primarily exposed to the regional economic development in these geographical markets. The value of the Group’s investment properties as per 31 December 2020 is to 57 per cent. attributable to greater Stockholm, to 31 per cent. attributable to Uppsala and to 12 per cent. attributable to other regions in Sweden. For example, the local economic growth affects the developments in employment rate and salaries as well as the demand on the relevant rental market, which in turn affect vacancy rates and rental levels, in particular in respect of commercial premises. A decreased demand in the current market may lead to difficulties in finding tenants and, as a result, lower revenues for the Group.

Inflation expectations have an impact on interest rates, which consequently affects the Group’s result from property management as interest expenses are one of the Group’s largest single costs (for the financial period January to December 2020, the Group’s interest expenses amounted to approximately SEK 92 million). For the effects on the Group from interest rate changes, see further risk factor “*Interest rate risks*” below. Changes, and expectations on changes, in the inflation rate could impact yield requirements on properties and, consequently, the market value of the Group’s properties, which in turn

could lead to various negative effects (see risk factor “*Changes to the value of the Group’s properties*” above). Furthermore, a negative development of the real estate market during the implementation of a project, may lead to a reduction of the Group’s profitability from project development, losses or that the Group cannot divest the property at all or only on less favourable terms, which in turn may result in diminished property value and decreased profit.

The Company considers the probability of several macroeconomic factors that may have high material adverse effect on the Group’s operations, results and financial position occurring to be low. However, the probability that some negative macroeconomic factors may occur is high. The negative effect of such factors depends on the nature of the relevant macroeconomic factor and its severity. For instance, the potential negative impact from increased market interest rates (see risk factor “*Interest expense risk*” below) or deteriorated access to financing (see risk factor “*Financing and liquidity risks*” below) is considered to be high, while the potential negative impact from demographic changes alone is considered to be low.

Rental levels and rental development

The Group’s financial results are generally negatively affected in the case of decreased occupancy rates or rental levels. On 31 December 2020, the Group owned 48 investment properties with a market value of approximately SEK 4,560 million, allocated over 189,543 square meters, with approximately 280 tenants and an average tenancy duration of close to 7 years. The three largest tenants were Coop Sverige, Stiftelsen Uppsala Musikklasser and HOOM Home & Hotel AB, which together accounted for 14.38 per cent. of contracted rental income. There is a risk that the Group fails to let planned projects or that the Group’s tenants do not renew, fulfil or extend their tenancy agreements. Increased vacancy levels generally leads to a decrease in the Group’s rental income. If Genova fails to achieve and maintain planned occupancy rates in new projects or if Genova’s vacancies increase dramatically and the Group fails to replace such vacancies, the Company considers the potential negative impact to be high. The negative effects, of planned occupancy rates or rental levels in new projects not being achieved, is generally higher than if occupancy rates or rental levels in the existing portfolio decrease. The Company considers the probability of this risk occurring to be low, however, the probability significantly increases in the event of a material deterioration of the macroeconomic development.

The Group is also dependent on its tenants paying their rent on time and in case the tenants would not pay their rents as they fall due (or do not pay at all), or otherwise fail to fulfil their obligations, this could have a material negative impact on the Group’s earnings and the value of its receivables. The Company considers the probability of the risk occurring to be low, however, the probability significantly increases in the event of a material deterioration of the macroeconomic development. If the risks were to occur, the Company considers the potential negative impact to be high.

Project development risks

Part of the Group’s business activities consists of project development. As per 31 December 2020, the Group had 3 projects in production, corresponding to a property value of SEK 1,570 million and an estimated leasable area of approximately 29,906 square meters for residential units and 1,518 square meters for premises. The possibility of implementing development projects with financial profitability depends upon the projects coming into production and being completed, which in turn depends on several factors, such as the ability to retain and recruit necessary expertise within, *inter alia*, construction, project planning, architecture and marketing, as well as to obtain necessary permits and authority approvals and procuring contracts for project implementation on acceptable terms. Furthermore, the Group’s project development is dependent on a continuous supply of and financing of

new projects on acceptable terms, and that the Group's projects being tailored to adequately respond to market demands. Out of the Group's 33 projects as per 31 December 2020, 3 are in production and 30 are in the planning phase (5 of which are part-owned). One of the Group's operative goals is to increase the number of self-constructed housing in production to 750 units per year and as of 2022 this will increase to 1,500 units per year. As per 31 December 2020 the annual production rate amounted to 540¹. The possibility to implement profitable project development is further affected by factors such as changes in the market demand of housing and premises and the price of properties in general, inadequate planning, analysis or cost control, changes in taxes and fees and other factors that could lead to unexpected costs for the projects, to lower than expected profitability for the Group and/or adverse effects on the value of the Group's properties. In addition, delays in projects may decrease profitability. The profitability is also affected by defects and shortcomings that are discovered and taken care of subsequent to access (Sv. *eftermarknadsåtgärder*).

The Company considers the probability of any of the abovementioned risks occurring to be low. If the risk were to occur, the Company considers the potential negative impact to be low.

Genova does not conduct any construction business activities on its own and depends upon contractors for all construction. This results in a vulnerability in relation to the reliability and ability of the contractors with whom Genova is co-operating. If Genova fails to enter into, or enters into ambiguous or inadequate, agreements with contractors, Genova will be exposed to the risk of sub-contractors not delivering in accordance with Genova's expectations. Contractors may also fail to fulfil agreed terms, for example regarding costs, quality and delivery time. Such deficient fulfilment may be due to financial difficulties of the contractor concerned, which prevent the relevant contractor to deliver in accordance with agreed terms. The possibility to implement profitable property projects is, among other things, affected by Genova's contracted construction works being delivered and produced at the agreed price and within the agreed time, as Genova's property projects may otherwise be delayed and become more costly, with negative consequences for Genova's other operations, its brand and its results. During 2019, a construction contractor working for Genova, went bankrupt and Genova took on the responsibility to complete the assignment, which lead to delays and increased cost for Genova in the current project. Considering this experience, the Company considers the probability that contractors fail to deliver in accordance with Genova's expectations in the future to be low. The negative effects of such breach of contract depend on the nature and cause of the breach and any macroeconomic factor, including its severity, affecting the contractor and causing the breach. For example, the potential negative impact of a contract breach due to financial difficulty of the contractor concerned, is considered to be high and primarily affect the Group's profitability and operational activities, while the potential negative impact of contract breach in terms of quality and delivery time is considered to be medium and primarily affect the Group's financial position and business.

Property costs

The Group's operating costs mainly consist of costs for heating, water, property maintenance, cleaning and insurance. During the period January to December 2020, the operating costs amounted to SEK 45 million. The Group has limited control over these costs. To the extent increases in such costs are not, directly or indirectly, compensated in accordance with the terms of tenancy agreements, or by renegotiation of tenancy agreements such as in relation to rent increases, it could have a material negative impact on the Group's results (see risk factor "*Changes to the value of the Group's properties*" above). The Company considers the probability of an increase in the relative operating costs (*i.e.*

¹ Including 35 hotel rooms.

without taking into account a larger property portfolio and an altered product mix) to be low. If the risk were to occur, the Company considers the potential negative impact to be low.

Maintenance costs are attributable to actions that intend to maintain the properties' original standard and value. In addition to maintenance costs, unexpected expenses related to adjustments for tenants normally arise. During the period January to December 2020, maintenance costs amounted to SEK 10 million. Unexpected and large renovation needs may entail significant expenses for the Group. The Company considers the probability of the risk occurring to be high. If the risk were to occur, the Company considers the potential negative impact to be low.

Risks related to acquisitions, disposals and other transaction-related risks

The Company's operations continuously involve property transactions. In the financial year 2019 the Group acquired 18 properties and divested one property. During fourth quarter of 2020 and after, the Group has acquired investment properties at a total underlying property value of SEK 375 million and disposed properties at a total underlying property value of SEK 239 million. During the fourth quarter of 2020, accession was gained to the properties Kryddgården 6:5 and Korsängen 20:2 and 20:3 in central Enköping at an underlying property value of SEK 91 million. In October 2020, Genova agreed to acquire the Gredelby 7:89 and Särsta 3:398 properties in Knivsta at an underlying property value of SEK 246 million before deductions for deferred tax. Such transactions are associated with risks and uncertainties. Acquisitions of properties are for instance associated with uncertainty in relation to the handling of tenants, unexpected costs with respect to environmental clean-up, rebuilding and handling technical problems, decisions from authorities and the occurrence of disputes relating to the acquisition or the condition of the property. Such uncertainties may result in delays and increased and/or unexpected costs for the transaction and that the value of the acquired property will therefore be lower than expected. In connection with the disposal of a property, there is a risk that claims could be directed against the Group regarding, among other things, the condition of the disposed property and provided warranties.

The Company considers the probability of any of the risks occurring to be low. If any of the risks were to occur, the Company considers the potential negative impact to be low.

The Group currently has one building under construction for a tenant owned association. When the Group sells properties to tenant owned associations, in addition to customary warranties regarding the property, the Group provides certain guarantees and undertakings in relation to the project, among other things, guarantees in relation to the financial calculation of the project (implying that the Group shall compensate the tenant owned association if the estimated costs set forth in the project financial calculation are exceeded) and in relation to the economic plan of the project. The Group has also committed to acquire unsold condominiums, and the Group is consequently affected by any reduced desire and ability to pay for housing units produced by the Group. The fulfillment of these guarantees and undertakings could lead to material costs for the Group. The Company considers the probability of the risk occurring to be medium. If the risk were to occur, the Company considers the potential negative impact to be low.

The Group is also regularly a guarantor for financing arrangements entered into by tenant owned associations for the purpose of financing the associations' acquisitions of the Group's housing development projects. In the event that such tenant owned association is unable to service its debt obligations and the value of pledged property would prove to be less than the tenant owned association's debts, the lenders may invoke the commitments made by the Group. There is a risk that the expected

incomes calculated by a tenant owned association are not realised or that a tenant owned association for other reasons is unable to meet their financial commitments, which would trigger the Group's payment obligations under the commitments made by the Group, resulting in material costs for the Group. The Company considers the probability of the risk occurring to be low. If the risk were to occur, the Company considers the potential negative impact to be low.

Technical risks

The Group's property management, project development and property acquisitions are associated with technical risks, which include risks associated with the technical status of the property, such as the risk for construction errors, other latent defects and deficiencies, damages and pollution. If such technical problems would occur, they may cause delays of planned property development projects, or increased costs for upgrading and management of the Group's properties (including measures needed in respect of properties already disposed of). Any technical deficiencies in the properties developed by the Group may also constitute a breach of warranties that the Group has made to acquirers of such properties, which in turn may lead to increased costs for the Group – see for example “*Risks related to acquisitions, disposals and other transaction-related risks*” above.

The Company considers the probability of the abovementioned risks occurring to be medium. If the risks were to occur, the Company considers the potential negative impact to be medium.

Role distribution and dependence on key personnel

Genova's organisation is built around a number of individuals with many years of experience in property management, project development, financing and marketing. Its own capacity is complemented by purchased services, in order to give the organisation flexibility and capacity to handle large project volumes despite its limited size. Genova's narrow organisation may cause the Group to incur losses due to inadequate routines regarding, among other things, role distribution, internal control, appropriate administrative systems, competence development and access to reliable valuation and risk models.

Due to the limited size of the organisation, the Group and its operations are further dependent on a number of key people, including Genova's senior executives. Through their experience, these key people have built good relationships with actors in the property market in Sweden and these key people are therefore important for a successful development of the Group's business.

If Genova's procedures fail or lead to incorrect decisions or if key people leave Genova, it could have a medium negative impact on Genova's operational activities. The Company considers that the probability of the risk occurring is low.

Legal and regulatory risks

The Group is subject to political decisions that affect the operations

In order for the Group's properties and building rights to be used and developed as intended, different permits and rulings, including, zoning plans, building permits and other forms of land parcelling are required, all of which are granted by local authorities and municipalities, both on a political and an official level. There is a risk that decisions and rulings are delayed and/or that the Group is not granted the permits or the decisions needed to conduct and develop the Group's operations as intended or that the intended projects only could be carried out at higher costs and/or lower development rate than expected or with delays. This could also have an impact on the value of the Group's properties. Furthermore, there is a risk that permits are appealed, and that processes are therefore significantly

delayed, or that established practice and/or the political environment in which the Group operates changes in an undesirable way for the Group. The Company considers the probability of any of the risks occurring to be high. As of 30 September 2020, Genova was an applicant in five matters regarding building permits and involved in 25 planning procedures. If any of the risks were to materialise, the Company considers the potential negative impact to be high.

Property operations are also materially affected by more general political decisions by way of laws, regulations and other decisions by authorities regarding for example planning and construction processes, taxes and fees, construction requirements (e.g. safety requirements, environmental requirements, building standards, material requirements, etc.) and the rent control in the housing market. These rules and regulations are subject to changes, both due to political decisions and due to the legal interpretation of the rules and regulations. For example, in autumn 2019 a Court of Appeal (Sv. *Hovrätt*) ruling led to rent reductions for a number of newly built rental apartments in Uppsala. If the regulatory framework were to change, or if Genova's interpretation of existing laws and regulations prove to be incorrect, this could have a material negative impact on the Group's operations. The Company considers the probability of the risk occurring to be low. If the risk were to occur, the Company considers the potential negative impact to be high.

Since 2017, developers may apply for so-called investment grants (Sv. *investeringsstöd*) for construction of rental apartments and student housing. The investment grant comes with certain requirements, *inter alia* in terms of rental levels (which must not exceed a certain level), tenant agencies (through municipal housing agencies or otherwise pursuant to open and transparent principles) and energy usage. Genova includes calculations for investment grants in its business model for ongoing projects. However, competitors of Genova, with projects in the same area as Genova, may receive investment grants exceeding such calculated levels, which may lead to lower rental levels in the area. In the longer term, investment grants could thus have adverse effects on rental levels in the areas also where Genova's properties are located. The Company considers the probability of the risk occurring to be medium. If the risk would materialise, the Company considers the potential negative impact to be low, since the impact is deemed geographically isolated.

Agreements (such as land development agreements) and procedures (such as zoning plan procedures) in the public sector, and the procedures relating thereto, are often subject to a more extensive review and public scrutiny than commercial agreements between private parties. The publicity and the political aspects of publicly procured agreements with municipalities and authorities imply an increased risk in relation to the Group's reputation. Negative publicity concerning the Group, regardless of its truthfulness, could have a material negative impact on the Group's operations. The Company considers the probability of any of the risks occurring to be high. If the risk were to materialise, the Company considers the potential negative impact to be medium.

The Company is from time to time dependent on temporary building permits in order for the Company, or its tenants, to be able to carry out planned operations on the property. In the event that such a temporary building permit would not be granted or extended, planned or ongoing use of the property may need to be changed or discontinued, which could adversely affect the Company's investment property portfolio. The company considers the probability of the risk occurring to be low. If the risk were to occur, the Company considers the potential negative impact to be medium.

Tax risks

The Group's operations are conducted in accordance with the Group's interpretation of applicable laws and regulations and current practice within the area of tax, and in accordance with advice from tax consultants. However, it cannot be ruled out, that the Group's interpretation of applicable tax laws and regulations is incorrect or that such regulations or practice changes, possibly with retroactive effect. The Group may also, from time to time, be subject to tax audits which may result in additional tax or fees to be payable. For example, Genova Veddesta Fastighet AB was subject to a tax audit regarding VAT for the period 2016–2019. Auditing of this type may be carried out for an extended period of time and this generally means that any tax increases cannot be ruled out before such audit has been completed. The Group's tax situation is also affected by whether transactions between companies within the Group are considered to be market-priced and whether the Group's applied allocation principles, when allocating purchase value to properties, are considered correct.

Some senior executives have been offered and have acquired shares in companies within the Group. In September 2019, the Company repurchased such shares from senior executives through share exchange transactions, resolved pursuant with the so-called Leo Act (*Sv. Leo-lagen*). The Group believes that these transactions have been conducted on market terms. However, if any of these transactions are not considered to have been entered into on market terms, there is a risk that additional taxes, interest or fees will be imposed on the Group.

The company considers the probability of the risk occurring to be medium. If the risk were to occur, the Company considers the potential negative impact to be medium.

Changes in tax rules

Tax is a significant cost item for the companies in the Group. The Group's operations are affected by tax rules in force at any time and changes to these rules will thus have an effect on the Group. Changes to the property tax and other taxes such as corporate tax, VAT and other governmental charges as well as rules regarding tax exempted disposals of shares could thus have a negative impact on the Group's operations and results.

As the Group's operations are capital intensive, the Group is affected by the new interest deduction limitation rules that entered into force in Sweden on 1 January 2019. The new rules entail a general limitation for interest deductions within the corporate sector by introducing an EBITDA-rule implying that a company is only given the right to deduct a negative net interest income (the difference between the company's deductible interest expenses and its taxable interest income) corresponding to a maximum of 30 per cent. of the company's taxable EBITDA. In connection with the introduction of the general interest deduction limitation rules, the corporate tax rate was also reduced, in a first step to 21.4 per cent (as per 1 January 2019) and in a second step from 21.4 per cent to 20.6 per cent (as per 1 January 2021).

As per 31 December 2020, the Group's total outstanding interest bearing debt amounted to SEK 3,534 million, with an average interest rate of 2.1 per cent. (excluding the Company's bond loans; and including such bond loans, 2.9 per cent.). Depending on how the Group's capital structure and operating profit appear going forward, the new rules, despite the reduction in the corporate tax rate, may have a material adverse effect on the Group's results.

The Company considers that the probability of further changes in tax legislation that result in changes in the Group's tax position to be high. If the risk were to occur, the Company considers the potential negative impact to be high.

Risks related to accounting rules and uncertainty in estimates

The Group is affected by the accounting rules applicable in the jurisdictions in which the Group operates, including IFRS and other international accounting standards. The Group's accounting, financial reporting and internal control may in the future be affected by changes of or altered practices in relation to applicable accounting rules. For example, IFRS 9 and IFRS 15 came in to force in January 2018 and IFRS 16 came into force in January 2019, and these standards are all applicable to the Group. This could result in uncertainty regarding the Group's accounting, financial reporting and internal control.

The Group's accounting, financial reporting and internal control are conducted in accordance with the Group's interpretation of the currently applicable accounting rules, and there is a risk that the Group's interpretation of such rules is incorrect. There is also a risk that changes to applicable accounting rules or an altered application of the now applicable accounting rules could affect the Group's financial result, balance sheet and equity. The Company considers the probability of the risk occurring to be low. If the risk were to occur, the Company considers the potential negative impact to be medium.

The International Accounting Standards Board ("**IASB**") published a discussion paper "*Financial Instruments with Characteristics of Equity*" in June 2018 (the "**Discussion Paper**"). The Discussion Paper sets out the IASB's preferred approach to how to classify financial instruments such as the Green Capital Securities and would if implemented most likely lead financial instruments such as the Green Capital Securities being classified as financial liabilities. Rather than equity instruments as per the current accounting standards. In September 2019, IASB tentatively decided not to pursue the classification approach proposed in the Discussion Paper. If the changes to the accounting standard proposed in the Discussion Paper or any similar proposal would be implemented, it would most likely lead to the Green Capital Securities being classified as financial liabilities of the Company which in turn would have a negative impact on the Company's financial position and result in an early redemption of the Green Capital Securities. The Company considers the probability of such reclassification to be low. If the risk were to occur, the Company considers the potential negative impact to be medium.

Accounting in accordance with IFRS and generally accepted accounting principles require the management to make assumptions. Assets and liabilities, income, costs and additional information accounted for are affected by assessments and assumptions. The actual outcome may however differ from the assessments and assumptions made. At the time of an acquisition or sale of a property by the Group, different assessments and assumptions may be made, for instance regarding the probability of changes to zoning plans, obtaining of building permits or that an additional purchase price will be payable, and changes to such factors could affect the Group's earnings and financial position, inter alia due to changes to the value of the Group's properties. The Company considers the probability of incorrect assessments and assumptions to be low. If the risk were to occur, the Company considers the potential negative impact to be low.

Environmental risks

According to Swedish legislation, the main rule is that the business operator, either current or former, is responsible for the remediation of a contaminated property. There can be, or in the past there may

have been, tenants on the properties owned directly or indirectly by the Group who conduct operations that may require remediation in accordance with the Swedish Environmental Code (*Sv. miljöbalken (1998:808)*).

If no operator can perform or pay for the remediation of a contaminated property, the party who has acquired the property is responsible for the remediation if the party knew of, or at the time ought to have discovered, the contaminations. As of 31 December 2020, the Group owns 48 investment properties and development projects comprising 5,890 building rights, all of which pertain ownership of real property. This means that remediation claims under certain circumstances may be directed against the Group for cleaning-up or after-treatment due to the occurrence of, or suspicion of, contamination in the ground, water areas or groundwater, in order to ensure the properties are in such condition as required by the Environmental Code. If any of the Group's properties turns out to be contaminated, this could limit the Group's intended use of the property, lead to significant costs for after-treatment and/or have adverse effects on the value of the Group's properties.

If changes to legislation and authority requirements were to occur this might lead to increased costs for remediation or after-treatment for current or in the future acquired properties. Furthermore, future changes in applicable laws and regulations and authority requirements may lead to increased costs for the Group and delay the Group's intended development of properties.

The Company considers the probability of any of the risks occurring to be low. If any of the risks were to occur, the Company considers the potential negative impact to be medium.

Financial risks related to Genova

Interest expense risks

The Group is financed mainly through interest bearing debt in addition to equity. Interest expenses are among the main cost items for the Group, amounting to approximately SEK 92,3 million for the period January to December 2020 and SEK 66.1 million for the financial year 2019. The interest expenses are mainly affected by the, from time to time, current interest rate levels. Interest rate expenses are affected by, besides the volume of interest bearing debt, the level of current market interest rates, the credit institutions' margins and the Group's strategy regarding interest rate fixation. As per 31 December 2020, the Group's average interest rate amounted to 2.1 per cent. (excluding the Company's bond loans; and including such bond loans, 2.9 per cent.).

The market interest rates are mainly affected by the expected inflation rate. The short interest rates in Sweden, such as three months STIBOR, which currently constitutes the basis for determining the interest in a majority of the Group's loan agreements as per 31 December 2020 (see, however, for further discussion risk factor "*Interest rate risks and benchmarks*" below), is mainly affected by the Swedish National Bank's (*Sv. Riksbanken*) repo rate (*Sv. reporänta*), which is a monetary policy steering mechanism. If the inflation is expected to increase, the repo rate is expected to increase and vice versa. If three months STIBOR had been 0.5 percentage points higher for 2019, the Group's interest costs during such financial year would have been SEK 74.7 million. The larger the share of the Group's interest bearing loans covered by interest rate fixation and the longer such interest rate fixation periods, the longer time before a change in the base interest rate would affect the Group's interest expenses. Increased interest rates and increased interest expenses could lead to changes in fair market values, changes in cash flows and fluctuations in the Group's results. The Company considers the probability of any of the risks occurring to be medium. If any of the risks were to occur, the Company considers the potential negative impact to be medium.

Financing and liquidity risks

The Group's operations are mainly financed by interest bearing debt. As per 31 December 2020, the Group's total outstanding interest bearing debt amounted to approximately SEK 3,534 million (of which approximately SEK 2,555 million to credit institutions). During 2019, approximately SEK 1,300 million of debt relating to the Group's investment properties were refinanced for 5 years with credit institutions. Part of the Group's operations consists of project development, which may be delayed or suffer from unexpected or increased costs due to factors which may be outside of the Group's control, which may in turn cause that projects are not completed before the loans fall due, or that such increased costs are not covered by existing loan agreements. In case the Company is unable to obtain new financing or refinance existing facilities, or is only able to obtain such financing on unfavourable terms, it could, among other things, lead to increased costs and lower revenues and have a material negative effect on the Group's operations in general. The Company considers the probability of the risk of not being able to obtain new financing or refinance existing facilities to be low, however, the probability significantly increases in the event of a material deterioration of the macroeconomic development or a decrease in value of the Group's properties. If the risk occurs and the Company is not able to obtain new financing or refinance existing facilities, the Company considers the potential negative impact to be high.

As per 31 December 2020, the Group has liquidity of SEK 1,013 million, including unutilised credit facilities of SEK 435 million. The Group's credit facility is subject to conditions consisting of a number of financial ratios and a number of non-financial ratios. The financial ratios include the loan-to-value ratio and the interest-coverage ratio. In the event that access to current financing changes (see risk factor "*Dependence on available financing alternatives*" above) and/or the macroeconomic conditions otherwise change in a way that affects the Group's results, financial position and cash flows (see risk factor "*Macroeconomic factors*" above), for example as a result of the outbreak of Covid-19 (see the risk factor "*Risks related to the outbreak of Covid-19*" above), it could adversely affect the Group's liquidity, which could lead to a working capital deficit in the Group. The company considers that the probability of the risk occurring is low. If the risk should occur, the Company considers that the potential negative impact is high.

Credit risk

The Group's existing and future counterparties, including its tenants, could enter into a financial position where they are unable to pay agreed rents on time or are otherwise unable to fulfil their obligations pursuant to tenancy agreements entered into. There is also a risk that the Group's counterparties, including tenant-owner associations, refrain from fulfilling its payment obligations in accordance with any preliminary sales agreements in relation to the Group's properties. These preliminary agreements are binding according to the Swedish Tenant-Owners Act (Sv. *bostadsrättslagen (1991:614)*), but it cannot be ruled out that parties of such preliminary agreements, when a condominium is to be signed, are unable to pay the contribution in accordance with the terms of the preliminary agreement or otherwise do not fulfil their obligations pursuant to such agreement, which ultimately may affect the warranties provided by the Group in relation to the relevant tenant-owner association (see risk factor "*Risks related to acquisitions, disposals and other transaction-related risks*" above). The Group has also entered into, and may enter into in the future, preliminary agreements concerning properties not yet been completed. If counterparties do not adhere to such preliminary agreements, the Group may not be fully reimbursed in case of the counterparty's failure to enter into a rental agreement in accordance with the preliminary agreement. The ability of the Group's counterparties to fulfil agreements vis-à-vis the Group is also affected by the prevailing macroeconomic

environment (see risk factor “*Macroeconomic factors*” above), influenced by, for instance, the outbreak of Covid-19 (see risk factor “*Risks related to the outbreak of Covid-19*” above), which could adversely affect the Group’s liquidity and decrease its working capital. The Company considers the probability of the risk occurring to be low. In the event that a single counterparty is unable to fulfil its commitments vis-à-vis the Group, the Company considers the potential negative impact to be low. However, the potential negative impact increases to high in the event that several counterparties fail to fulfil its obligations. The Company considers the probability of the above risks occurring to be low but that the probability significantly increases in the event of a materially deteriorated macroeconomic development.

Financial covenants

The Group finances its operations by way of interest bearing loans from credit institutions as well as the capital markets, by way of bond loan financing. As per 31 December 2020, the Group’s total outstanding interest bearing debt amounted to approximately SEK 3,534 million (of which approximately SEK 2,555 million to credit institutions). The Group’s interest bearing debt to credit institutions is secured by mortgages and pledges over properties, promissory notes (within the Group), shares in subsidiaries and by parent company guarantees. Certain Group companies have also issued guarantees for loans taken by tenant owned associations in relation to their acquisition of development projects from the Group.

Some of the Group’s financing agreements include financial covenants. The financial covenants in such agreements are, at least in the short term, negatively affected when the Group acquires properties financed with loans from external creditors or in the event of value deterioration of the Group’s properties. Should the Group fail to meet any financial covenants in the relevant loan agreements, it could result in the Group’s loans, including the Company’s bond loans, which contain cross-default provisions, being terminated prior to maturity and pledges or guarantee commitments being enforced, which could have a material adverse effect on the Group’s operations and financial position, which in turn would lead to increased costs and/or a decrease in the Group’s liquidity. Certain of the Group’s loan agreements provide that the lender may terminate the agreements in the event of a change of control event occurring or in case the relevant security provided would become deteriorated, the Group is, among other things, subject to financial covenants in relation to its equity ratio and net debt to property value ratio. Consequently, deterioration of the property market (see risk factors “*Macroeconomic factors*” and “*Changes to the value of the Group’s properties*” above) could result in the Group failing to meet its financial covenants, which in turn could result in the Group’s loan agreements being terminated and/or any security being enforced, which would adversely affect the Company’s operations and financial position. The Company considers the probability of the risk occurring to be medium. If the risk were to occur, the Company considers the potential negative impact to be high.

Risk factors specific and material to the Green Capital Securities

Risks related to the nature of the Green Capital Securities

Risks related to the labelling of the Green Capital Securities

The Company intends to use the net proceeds of the issue of the Green Capital Securities to redeem the existing preference shares and in accordance with the Company’s green finance framework (the “**Green Finance Framework**”). However, there is currently no unequivocal definition of, legal or otherwise, or market consensus as to what constitutes a “green” or an equivalently-labelled project. Accordingly, there is a risk that any projects, asset or uses defined in the Green Finance Framework will not meet current or future investor expectations regarding such “green” or other equivalently-labelled

performance objectives, in particular as future developments or legal requirements as to the definitions of “green”, whether according to applicable law or regulations or by such investor’s own by-laws, other governing rules or investment portfolio mandates, may change.

A failure by the Company to apply the net proceeds of the Green Capital Securities in accordance with the Green Finance Framework does not give the investor a right to require that the Company shall repurchase or redeem any of their Green Capital Securities. Should the Company fail to apply the net proceeds in accordance with the Green Finance Framework, there is a risk that investors consequently would be in breach of any investment criteria, mandates or guidelines with which an investor is required to comply with and could result in remedies under the relevant investment criteria, mandates or guidelines, which could result in investors facing, inter alia, claims or reputational damages.

Due to the rapidly changing market conditions for green securities, there is a risk that current or future investor expectations will not be met which could negatively affect the secondary trading of the Green Capital Securities. Furthermore, should such market conditions significantly change, there is a risk that an investor of the Green Capital Securities cannot trade its Green Capital Securities at attractive terms, or at all.

The Company considers that the probability of the Company facing adverse effects relating to the labelling of the Green Capital Securities as “green” is low. If the risk were to occur, the Company considers the potential negative impact to be high.

Dependence on subsidiaries and joint ventures

A significant part of the Group’s assets and revenues relate to the Company’s subsidiaries and joint ventures. Accordingly, the Company is dependent upon receipt of sufficient income related to the operation of and the ownership in such entities to enable it to make payments under the Green Capital Securities. The Company’s subsidiaries and joint ventures are legally separate and distinct from the Company and have no obligation to pay amounts due with respect to the Company’s obligations and commitments, including the Green Capital Securities, or to make funds available for such payments. The ability of the Company’s subsidiaries and joint ventures to make such payments to the Company is subject to, among other things, the availability of funds.

Should the value of the business conducted in the subsidiaries or the associated companies decrease, and/or should the Company not receive sufficient income from its subsidiaries and associated companies, an investor’s ability to receive payment under the terms and conditions of the Green Capital Securities may be adversely affected. The Company considers the probability of the risk occurring to be low. If the risk were to occur, the Company considers the potential negative impact to be high.

The Green Capital Securities are contractually and structurally subordinated to most of the Company’s liabilities

The Green Capital Securities represent deeply subordinated debt obligations of the Company. This means that if the Company is subject to any liquidation (Sw. *likvidation*), bankruptcy (Sw. *konkurs*), restructuring (Sw. *företagsrekonstruktion*), administrative or other bankruptcy or insolvency proceedings, the investors normally receive payment after all other creditors have been paid in full. Hence, in relation to such liquidation or bankruptcy, restructuring, administrative or other bankruptcy or insolvency proceedings of the Company, investors’ claims for the principal amount of their Green Capital Securities and any accrued and unpaid interest thereon will rank *pari passu* with any present or future claims in respect of obligations of the Company in respect of Parity Securities (as defined in the

terms and conditions for the Green Capital Securities). Furthermore, claims will rank junior in right of payment to any present or future claims of all unsubordinated obligations of the Company and all all Subordinated Indebtedness (as defined in the terms and conditions for the Green Capital Securities). In relation to a liquidation or bankruptcy, claims will however rank in priority to all present and future claims in respect of the shares of the Company and any other obligation of the Company expressed to rank junior to the Green Capital Securities or any Parity Securities. As the investors only will have an unsecured claim against the Company, the investors may not recover any or all of their investment.

There is no restriction in the terms and conditions of the Green Capital Securities in relation to incurring, issuing or guaranteeing debt ranking senior to or *pari passu* with the Green Capital Securities. The Company and its subsidiaries may incur additional indebtedness or issue guarantees in respect of indebtedness or guarantees of third parties. Furthermore, in the event of insolvency, liquidation or a similar event relating to one of the Company's subsidiaries or joint ventures, all creditors of such company would be entitled to payment in full out of the assets of such subsidiary or joint venture before the Company, as a shareholder, would be entitled to any payments. Thus, the Green Capital Securities are structurally subordinated to the liabilities of such subsidiaries and joint ventures. Incurring such additional indebtedness may reduce the amount (if any) recoverable by investors if the Company is subject to any dissolution, winding-up, liquidation, restructuring, administrative or other bankruptcy or insolvency proceedings and may increase the likelihood of that interest payments under the terms and conditions of the Green Capital Securities are deferred, at the potential detriment on an investor.

Any potential investor should therefore be aware of that an investment in the Green Capital Securities entails a risk that the investor loses all or part of its investment if the Company becomes liquidated, bankrupt, insolvent, carries out a restructuring or is wound-up.

The Company considers the probability of the risk occurring to be medium. If the risk were to occur, the Company considers the potential negative impact to be high.

Interest rate risks and benchmarks

The Green Capital Securities' value depends on several factors, one of the more significant over time being the level of market interest. The Green Capital Securities will bear a floating rate interest of STIBOR plus a certain margin and the interest rate is therefore adjusted for changes in the level of the general interest rate. Hence, there is a risk that increased general interest rate levels significantly affect the market value of the Green Capital Securities.

The determining interest rate benchmarks, such as STIBOR has been subject to regulatory changes such as the Benchmarks Regulation (Regulation (EU) 2016/1011 on indices used as benchmarks in financial and contracts or to measure the performance of investment funds) (the "**BMR**"). The implementation of the BMR will lead to that certain previously used benchmarks, such as EURIBOR will be discontinued, leading to that, *inter alia*, existing financing arrangements may need to be renegotiated or terminated. There is a risk that also STIBOR will be discontinued, or that alternative benchmark rates will dominate market practice, leading to uncertainties in relation to the interest rate payable in relation to the Green Capital Securities. Increased or altered regulatory requirements and risks associated with the BMR (as amended) involve inherent risks, as the effects cannot be fully assessed at this point in time. There is a risk that developments in relation to STIBOR cause volatility in STIBOR, which would affect the interest rate for the Green Capital Securities.

Should STIBOR be discontinued, the terms and conditions of the Green Capital Securities does not provide for an alternative calculation of the interest rate for the Green Capital Securities. There is a risk that the lack of such alternative interest calculation mechanism results in interest payments less advantageous for the investors compared to similar securities investments, or that such interest payment do not meet market interest rate expectations.

The Company considers that the probability of the above risks occurring is medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

Risks related to the Holders' rights and representation

Investors in the Green Capital Securities have very limited rights in relation to the enforcement of payments on the Green Capital Securities

If a default is made by the Company for a period of 30 days or more in relation to the payment of any interest, principal or premium in respect of the Green Capital Securities which is due and payable, the rights of the investors in respect of the Green Capital Securities are limited to instituting proceedings for an Issuer Winding-up, and the investors may prove and/or claim in respect of the Green Capital Securities in an Issuer Winding-up.

Whilst the claims of the investors in an Issuer Winding-up are for the principal amount of their Green Capital Securities together with any Deferred Interest and any other accrued and unpaid interest, such claims will be subordinated as stated above under “*The Green Capital Securities are contractually and structurally subordinated to most of the Company's liabilities*”, accordingly, claims in respect of the Green Capital Securities would rank junior to claims in respect of unsubordinated obligations of the Issuer in the event of an Issuer Winding-up. The investors shall not be entitled to accelerate payments of interest or principal under the Green Capital Securities in any circumstances outside an Issuer Winding-up.

Furthermore, whilst the investors may institute other proceedings against the Company to enforce the terms of the Green Capital Securities, the Company shall not, by virtue of such proceedings, be obliged to pay any sum or sums sooner than the same would otherwise have been payable by it. Accordingly, the investors' rights of enforcement in respect of payments under the Green Capital Securities are very limited.

The Company considers that the probability of the above risks occurring is medium. If the risks would materialise, the Company considers the potential negative impact to be high.

The Green Capital Securities constitute perpetual obligations

The Green Capital Securities are perpetual meaning that the Green Capital Securities have no specified maturity date. The Company is not obliged to redeem the Green Capital Securities at any time and investors have no option to redeem the Green Capital Securities at any time. The Company may only redeem the Green Capital Securities under certain circumstances.

Any potential investor should be aware that it may be required to bear financial risks of the investment in the Green Capital Securities for a long period of time and may not recover their investment before a redemption of the Green Capital Securities (if any) at the discretion of the Company (in particular if there is no active trading on the secondary market). Each potential investor should therefore be aware that there is a risk that it may lose the whole, or parts of, its investment in the event the Issuer chooses to not redeem the Green Capital Securities. The Company considers that the probability of the above

risks occurring is medium. If the risks would materialise, the Company considers the potential negative impact to be high.

Deferral of interest payment

The Company may, at its sole discretion by giving notice to the Holders, the Agent and the Issuing Agent before the relevant Interest Payment Date, elect to defer any interest payment, in whole or in part, which would otherwise be due on any Interest Payment Date. If interest is deferred in accordance with the terms and conditions of the Green Capital Securities, the Company has no obligation to make such payment on the relevant Interest Payment Date and any such non-payment of interest does not constitute a default or any other breach of obligations under the Green Capital Securities.

As the Green Capital Securities carry no voting rights with respect to general meetings of the Company, the investors cannot influence any decisions by the Company to defer payments or to optionally settle outstanding payments. As the Green Capital Securities are perpetual, the lack of availability to influence deferral of interest payments could impact investors' position and Green Capital Securities during a prolonged period of time and in a manner that would be undesirable for them.

Deferral of interest payments may have an adverse effect on the market price for the Green Capital Securities. In addition, the availability to defer interest may result in that the market price for the Green Capital Securities is more volatile than otherwise would be the case for market prices of other securities in respect of which interest accrues over pre-determined interest periods. Furthermore, the possibility to defer interest payments may expose the investors to fluctuations in the Company's financial position and may result in that the yields from the Green Capital Securities are less foreseeable.

The Company considers that the probability of the above risks occurring is medium. If the risks would materialise, the Company considers the potential negative impact to be medium.

The Company has not needed to use the Swedish government’s support for furlough schemes, give notice of termination or to terminate any employees. The company has no claimed tax relief, but it has taken advantage of the possibility to reduce employer contributions for the financial period March through December 2020, that was available to all employers. Rent payments for the Company’s tenants are however impacted and of the Group’s annual rental income of SEK 263 million, 60 per cent. is due quarterly in advance, and 40 per cent. monthly in advance. The Company is engaged in discussions with tenants in relation to switching from quarterly rent payments to monthly payments.

Of the adjusted rent receivable due for payment by 31 December 2020, 97.2 per cent. had been received by 15 January 2021, which is in line with the normal outcome.

- 2.2 In the event of:

6 **THE GREEN CAPITAL SECURITIES AND TRANSFERABILITY**

6.1 Each Holder is bound by these Terms and Conditions without there being any further actions required to be taken or formalities to be complied with.

- 6.2 The Green Capital Securities are freely transferable. All Green Capital Securities transfers are subject to these Terms and Conditions and these Terms and Conditions are automatically applicable in relation to all Green Capital Securities transferees upon completed transfer.
- 6.3 Upon a transfer of Green Capital Securities, any rights and obligations under these Terms and Conditions relating to such Green Capital Securities are automatically transferred to the transferee.
- 6.4 No action is being taken in any jurisdiction that would or is intended to permit a public offering of the Green Capital Securities or the possession, circulation or distribution of any document or other material relating to the Issuer or the Green Capital Securities in any jurisdiction other than Sweden, where action for that purpose is required. Each Holder must inform itself about, and observe, any applicable restrictions to the transfer of material relating to the Issuer or the Green Capital Securities, (due to, *e.g.*, its nationality, its residency, its registered address or its place(s) of business). Each Holder must ensure compliance with such restrictions at its own cost and expense.
- 6.5 For the avoidance of doubt and notwithstanding the above, a Holder which allegedly has purchased Green Capital Securities in contradiction to mandatory restrictions applicable may nevertheless utilise its voting rights under these Terms and Conditions and shall be entitled to exercise its full rights as a Holder hereunder in each case until such allegations have been resolved.
- 6.6 The Green Capital Securities have not been and will not be registered under the U.S. Securities Act of 1933, as amended, and are subject to U.S. tax law requirements. The Green Capital Securities may not be offered, sold or delivered within the United States of America or to, or for the account or benefit of, U.S. persons.

7 GREEN CAPITAL SECURITIES IN BOOK-ENTRY FORM

- 7.1 The Green Capital Securities will be registered for the Holders on their respective Securities Accounts and no physical Green Capital Securities will be issued. Accordingly, the Green Capital Securities will be registered in accordance with the Central Securities Depositories and Financial Instruments Accounts Act. Registration requests relating to the Green Capital Securities shall be directed to an Account Operator. The Debt Register shall constitute conclusive evidence of the persons who are Holders and their holdings of Green Capital Securities at the relevant point of time.
- 7.2 Those who according to assignment, security, the provisions of the Swedish Children and Parents Code (*Sw. föräldrabalken (1949:381)*), conditions of will or deed of gift or otherwise have acquired a right to receive payments in respect of a Capital Security shall register their entitlements to receive payment in accordance with the Central Securities Depositories and Financial Instruments Accounts Act.

- 7.3 The Issuer (and the Agent when permitted under the CSD's applicable regulations) shall be entitled to obtain information from the Debt Register. At the request of the Agent, the Issuer shall promptly obtain such information and provide it to the Agent.
- 7.4 For the purpose of or in connection with any Holders' Meeting or any Written Procedure, the Issuing Agent shall be entitled to obtain information from the Debt Register.
- 7.5 The Issuer shall issue any necessary power of attorney to such persons employed by the Agent, as notified by the Agent, in order for such individuals to independently obtain information directly from the Debt Register. The Issuer may not revoke any such power of attorney unless directed by the Agent or unless consent thereto is given by the Holders.
- 7.6 The Issuer (and the Agent when permitted under the CSD's applicable regulations) may use the information referred to in Clause 7.3 only for the purposes of carrying out their duties and exercising their rights in accordance with the Finance Documents and shall not disclose such information to any Holder or third party unless necessary for such purposes.

8 RIGHT TO ACT ON BEHALF OF A HOLDER

- 8.1 If any Person other than a Holder wishes to exercise any rights under these Terms and Conditions, it must obtain a power of attorney (or, if applicable, a coherent chain of powers of attorney), a certificate from the authorised nominee or other sufficient proof of authorisation for such Person.
- 8.2 A Holder may issue one or several powers of attorney to third parties to represent it in relation to some or all of the Green Capital Securities held by it. Any such representative may act independently under these Terms and Conditions in relation to the Green Capital Securities for which such representative is entitled to represent the Holder.
- 8.3 The Agent shall only have to examine the face of a power of attorney or other proof of authorisation that has been provided to it pursuant to Clauses 8.1 and 8.2 and may assume that it has been duly authorised, is valid, has not been revoked or superseded and that it is in full force and effect, unless otherwise is apparent from its face or the Agent has actual knowledge to the contrary.
- 8.4 These Terms and Conditions shall not affect the relationship between a Holder who is the nominee (*Sw. förvaltare*) with respect to a Capital Security and the owner of such Capital Security, and it is the responsibility of such nominee to observe and comply with any restrictions that may apply to it in this capacity.

9 PAYMENTS IN RESPECT OF THE GREEN CAPITAL SECURITIES

- 9.1 Any payment or repayment under these Terms and Conditions, or any amount due in respect of a repurchase of any Green Capital Securities, shall be made to such Person who is registered as a Holder on the Record Date prior to the relevant payment date, or to such other Person who

is registered with the CSD on such date as being entitled to receive the relevant payment, repayment or repurchase amount.

- 9.2 If a Holder has registered, through an Account Operator, that principal, Interest and any other payment that shall be made under these Terms and Conditions shall be deposited in a certain bank account, such deposits will be effectuated by the CSD on the relevant payment date. Should the CSD, due to a delay on behalf of the Issuer or some other obstacle, not be able to effectuate payments as aforesaid, the Issuer shall procure that such amounts are paid to the Persons who are registered as Holders on the relevant Record Date as soon as possible after such obstacle has been removed.
- 9.3 If, due to any obstacle for the CSD, the Issuer cannot make a payment or repayment, such payment or repayment may be postponed until the obstacle has been removed.
- 9.4 If payment or repayment is made in accordance with this Clause 9, the Issuer and the CSD shall be deemed to have fulfilled their obligation to pay, irrespective of whether such payment was made to a Person not entitled to receive such amount, unless the Issuer or the CSD (as applicable) was aware of that the payment was being made to a Person not entitled to receive such amount.
- 9.5 The Issuer is not liable to gross-up any payments under these Terms and Conditions by virtue of any withholding tax, public levy or similar.

10 INTEREST

10.1 Interest accrual

Interest accrues during an Interest Period. The Initial Green Capital Securities carries Interest at the applicable Interest Rate from, but excluding, the First Issue Date up to and including the relevant Redemption Date. Any Subsequent Capital Security will carry Interest at the Interest Rate from, but excluding, the Interest Payment Date falling immediately prior to its issuance (or the First Issue Date if there is no such Interest Payment Date) up to and including the relevant Redemption Date.

10.2 Interest Rate

- 10.2.1 The Interest Rate in respect of each Interest Period shall be the aggregate of the applicable:
- (a) Margin; and
 - (b) STIBOR (3 months).
- 10.2.2 Interest shall be calculated on the basis of the actual number of days in the Interest Period in respect of which payment is being made divided by 360 (actual/360-days basis).

10.3 Interest Payment Dates

10.3.1 Subject to Clause 11 (*Optional interest deferral*) and the Business Day Convention, payment of interest in respect of the Green Capital Securities shall be made quarterly in arrears to the Holders on each Interest Payment Date for the preceding Interest Period.

10.3.2 The Interest Payment in respect of each Interest Period may be deferred in accordance with Clause 11 (*Optional interest deferral*).

10.4 Default Interest

If the Issuer fails to pay any amount payable by it pursuant to Clause 11.3 (*Mandatory settlement of Deferred Interest*) or Clause 12 (*Redemption and repurchase of the Green Capital Securities*) (except for Clause 12.1 (*No maturity*), Clause 12.2 (*The Group Companies' purchase of Green Capital Securities*) and Clause 12.5 (*Cancellation of Green Capital Securities*)) on its due date, default interest shall accrue on the overdue amount from (but excluding) the due date up to (and including) the date of actual payment at a rate of two (2.00) per cent. *per annum*. Accrued default interest shall not be capitalised. No default interest shall accrue where the failure to pay was solely attributable to the Agent or the CSD.

11 OPTIONAL INTEREST DEFERRAL

11.1 Deferral of Interest Payments

11.1.1 The Issuer may, at any time and at its sole discretion, elect to defer any Interest Payment, in whole or in part, which is otherwise scheduled to be paid on an Interest Payment Date (except on any Interest Payment Date on which the Green Capital Securities are to be redeemed) by giving notice of such election to the Holders in accordance with Clause 24 (*Notices and press release*), the Issuing Agent and the Agent not less than seven (7) Business Days prior to the relevant Interest Payment Date. Notwithstanding the foregoing, failure to give such notice shall not prejudice the right of the Issuer to defer any Interest Payment as described above.

11.1.2 If the Issuer makes only a partial payment of interest on an Interest Payment Date, such amount shall be applied equally to each Capital Security.

11.1.3 Any Interest Payment so deferred pursuant to this Clause 11 shall, from (but excluding) the Interest Payment Date on which such Interest Payment would (but for its deferral) have been payable to (and including) the date on which it is paid in full, itself bear interest at the Interest Rate prevailing from time to time (which interest shall compound on each Interest Payment Date) and, for so long as the same remains unpaid, such deferred interest (together with the interest accrued thereon) shall constitute "**Deferred Interest**".

11.1.4 The deferral of an Interest Payment in accordance with this Clause 11 shall not constitute a default pursuant to Clause 15 (*Default and Enforcement*) by the Issuer under the Green Capital Securities or for any other purpose.

11.2 **Optional settlement of Deferred Interest**

Deferred Interest may be paid, in whole or in part, at any time at the option of the Issuer following delivery of a notice to such effect given by the Issuer to the Holders in accordance with Clause 24 (*Notices and press release*), the Issuing Agent and the Agent not less than seven (7) Business Days prior to the date (to be specified in such notice) on which the Issuer will pay such Deferred Interest. Any such notice shall state the date fixed for the payment and the relevant Record Date and is irrevocable.

11.3 **Mandatory settlement of Deferred Interest**

11.3.1 The Issuer shall pay any Deferred Interest, in whole but not in part, on the first to occur of the following dates:

- (a) the tenth (10th) Business Day following the date on which a Deferred Interest Payment Event occurs;
- (b) any Interest Payment Date in respect of which the Issuer does not elect to defer all of the interest accrued in respect of the relevant Interest Period; and
- (c) the date on which the Green Capital Securities are redeemed or repaid in accordance with Clause 12 (*Redemption and repurchase of the Green Capital Securities*) or Clause 15 (*Default and Enforcement*).

11.3.2 Notice of any Deferred Interest Payment Event shall be given by the Issuer to the Holders in accordance with Clause 24 (*Notices and press release*), the Issuing Agent and the Agent within three (3) Business Days of such event.

12 **REDEMPTION AND REPURCHASE OF THE GREEN CAPITAL SECURITIES**

12.1 **No maturity**

The Green Capital Securities are perpetual and have no specified maturity date. The Issuer may only redeem the Green Capital Securities in the circumstances described in this Clause 12 (*Redemption and repurchase of the Green Capital Securities*). The Green Capital Securities are not redeemable at the option of the Holders at any time.

12.2 **The Group Companies' purchase of Green Capital Securities**

The Issuer or any other Group Company may, subject to applicable regulations, at any time and at any price purchase Green Capital Securities in the market or in any other way. Green Capital Securities held by a Group Company may at such Group Company's discretion be retained, sold or, if held by the Issuer, cancelled, provided that the aggregate principal amount of the Green Capital Securities subject to such cancellation represents eighty (80) per cent. or more of the aggregate principal amount of the Green Capital Securities issued (which shall include, for these purposes, any Subsequent Green Capital Securities).

12.3 **Voluntary redemption by the Issuer (call option)**

The Issuer may elect to redeem all, but not some only, of the Green Capital Securities in full on the First Call Date or on any Interest Payment Date falling thereafter at a price per Capital Security equal to one hundred (100.00) per cent. of the Nominal Amount together with any Deferred Interest and any interest accrued from (but excluding) the immediately preceding Interest Payment Date to (and including) the Redemption Date.

12.4 **Voluntary redemption due to a Special Event**

Upon the occurrence of a Special Event, the Issuer may redeem all, but not some only, of its Green Capital Securities at any time at a price per Capital Security equal to:

- (a) if the Redemption Date falls prior to the First Call Date, one hundred and one (101.00) per cent. of the Nominal Amount; or
- (b) if the Redemption Date falls on or after the First Call Date, one hundred (100.00) per cent. of the Nominal Amount,

in each case together with any Deferred Interest and any interest accrued from (but excluding) the immediately preceding Interest Payment Date to (and including) the Redemption Date.

12.5 **Notice of redemption**

Redemption in accordance with Clauses 12.3 or 12.4 shall be made by the Issuer giving not less than thirty (30) and not more than sixty (60) days' prior notice, prior to the proposed Redemption Date, to the Holders, the Issuing Agent and the Agent. Any such notice shall state the Redemption Date and the relevant Record Date and is irrevocable but may in the case of a redemption in accordance with Clause 12.3, at the Issuer's discretion, contain one or more conditions precedent that shall be satisfied prior to the Record Date. Upon fulfillment of the conditions precedent (if any) and upon expiry of such notice, the Issuer shall redeem the Green Capital Securities in full at the applicable amounts on the specified Redemption Date.

12.6 **Cancellation of Green Capital Securities**

All Green Capital Securities which are redeemed pursuant to this Clause 12 and all Green Capital Securities purchased and elected to be cancelled pursuant to Clause 12.2 (*The Group Companies' purchase of Green Capital Securities*) will be cancelled and may not be reissued or resold. The Issuer shall promptly inform the Holders in accordance with Clause 24 (*Notices and press release*), the Agent and the Issuing Agent of any such cancellation and for so long as the Green Capital Securities are admitted to trading on Nasdaq Stockholm and the rules of such exchange so require, the Issuer shall promptly inform Nasdaq Stockholm (or any other relevant Regulated Market on which the Green Capital Securities are admitted to trading) of the cancellation of any Green Capital Securities under this Clause 12.6.

13 PRECONDITIONS TO SPECIAL EVENT REDEMPTION

- 13.1 Prior to the publication of any notice of redemption pursuant to Clause 12 (*Redemption and repurchase of the Green Capital Securities*) (other than redemption pursuant to Clause 12.3 (*Voluntary redemption by the Issuer (call option)*)), the Issuer shall deliver to the Agent a certificate signed by two authorised signatories of the Issuer stating:
- (a) that the relevant requirement or circumstance giving rise to the right to redeem the Green Capital Securities is satisfied; and
 - (b) in the case of a Withholding Tax Event, that the Issuer is unable to avoid paying additional amounts by taking measures reasonably available to it.
- 13.2 In addition, in the case of an Accounting Event, a Tax Deductibility Event or a Withholding Tax Event, the Issuer shall deliver to the Agent and the Issuing Agent an opinion of independent legal, accounting or other tax advisers to the effect that the relevant requirement or circumstance giving rise to the right to redeem is satisfied (save, in the case of a Withholding Tax Event, as to whether reasonable measures to avoid paying additional amounts are available to the Issuer). The Agent and the Issuing Agent shall be entitled to accept such opinion without any further inquiry as sufficient evidence of the satisfaction of the criteria set out in this paragraph, in which case it shall be conclusive and binding on the Holders.
- 13.3 Any redemption of the Green Capital Securities in accordance with Clause 12 (*Redemption and repurchase of the Green Capital Securities*) shall be conditional on all Deferred Interest being paid in full in accordance with the provisions of Clause 11.3 (*Mandatory settlement of Deferred Interest*) on or prior to the date of such redemption.

14 ADMISSION TO TRADING

The Issuer has the intention and shall use its best efforts (without assuming any legal or contractual obligation) to ensure that:

- (a) the Initial Green Capital Securities are admitted to trading on the sustainable bond list of Nasdaq Stockholm or, if such admission to trading is not possible to obtain or maintain, admitted to trading on another Regulated Market within thirty (30) days after the First Issue Date;
- (b) any Subsequent Green Capital Securities are admitted to trading on the sustainable bond list of Nasdaq Stockholm or, if such admission to trading is not possible to obtain or maintain, admitted to trading on another Regulated Market within thirty (30) days following the relevant Issue Date (or any shorter period of time required pursuant to applicable regulations or stock exchange rules); and
- (c) the Green Capital Securities, once admitted to trading on the relevant Regulated Market, continue being listed thereon (however, taking into account the rules and regulations of the relevant Regulated Market and the CSD (as amended from time to

time) preventing trading in the Green Capital Securities in close connection to the redemption of the Green Capital Securities).

15 DEFAULT AND ENFORCEMENT

15.1 Proceedings

15.1.1 Without prejudice to the Issuer's right to defer the payment of interest under Clause 11 (*Optional interest deferral*), if a default is made by the Issuer for a period of thirty (30) days or more in relation to the payment of any interest, principal or premium in respect of the Green Capital Securities which is due and payable (a "**Default**"), then the Issuer shall be deemed to be in default under the Green Capital Securities and the Agent (acting on instructions of the Holders in accordance with these Terms and Conditions) or (subject to Clause 22 (*No direct action by Holders*)) any Holder may institute proceedings for an Issuer Winding-up provided that such Default is still continuing ("**Proceedings**").

15.1.2 In the event of an Issuer Winding-up, a Holder may, provided such Holder does not contravene a previously adopted resolution (if any), either independently or through the Agent prove and/or claim in such Issuer Winding-up in respect of the Green Capital Securities, such claim being for such amount, and being subordinated in such manner, as is provided under Clause 2.2.

15.2 Enforcement

The Agent (acting on the instructions of the Holders in accordance with these Terms and Conditions) may institute such proceedings against the Issuer as it may think fit to enforce any term or condition binding on the Issuer under the Green Capital Securities ("**Enforcement**") but in no event shall the Issuer, by virtue of the institution of any such proceedings, be obliged to pay any sum or sums sooner than the same would otherwise have been payable by it.

15.3 Extent of Holders' Remedy

No remedy against the Issuer, other than as referred to in this Clause 15, shall be available to the Agent and the Holders, whether for the recovery of amounts owing in respect of the Green Capital Securities or in respect of any breach by the Issuer of any of its other obligations under or in respect of the Green Capital Securities.

16 DECISIONS BY BONDHOLDERS

16.1 Request for a decision

16.1.1 A request by the Agent for a decision by the Holders on a matter relating to these Terms and Conditions shall (at the option of the Agent) be dealt with at a Holders' Meeting or by way of a Written Procedure.

16.1.2 Any request from the Issuer or a Holder (or Holders) representing at least ten (10) per cent. of the Adjusted Nominal Amount (such request shall, if made by several Holders, be made by

them jointly) for a decision by the Holders on a matter relating to these Terms and Conditions shall be directed to the Agent and dealt with at a Holders' Meeting or by way of a Written Procedure, as determined by the Agent. The Person requesting the decision may suggest the form for decision making, but if it is in the Agent's opinion more appropriate that a matter is dealt with at a Holders' Meeting than by way of a Written Procedure, it shall be dealt with at a Holders' Meeting.

- 16.1.3 The Agent may refrain from convening a Holders' Meeting or instigating a Written Procedure if the suggested decision must be approved by any Person in addition to the Holders and such Person has informed the Agent that an approval will not be given or the suggested decision is not in accordance with applicable regulations.
- 16.1.4 The Agent shall not be responsible for the content of a notice for a Holders' Meeting or a communication regarding a Written Procedure unless and to the extent it contains information provided by the Agent.
- 16.1.5 Should the Agent not convene a Holders' Meeting or instigate a Written Procedure in accordance with these Terms and Conditions, without Clause 16.1.3 being applicable, the Person requesting a decision by the Holders may convene such Holders' Meeting or instigate such Written Procedure, as the case may be, itself. If the requesting Person is a Holder, the Issuer shall upon request from such Holder provide the Holder with necessary information from the Debt Register in order to convene and hold the Holders' Meeting or instigate and carry out the Written Procedure, as the case may be. If no Person has been appointed by the Agent to open the Holders' Meeting, the meeting shall be opened by a Person appointed by the requesting Person.

18.1.2 If a Base Rate Event has occurred, this Clause 18 shall take precedent over the fallbacks set out in paragraph (b) to (d) of the definition of STIBOR.

18.2 Definitions

In this Clause 18:

“**Adjustment Spread**” means a spread (which may be positive, negative or zero) or a formula or methodology for calculating a spread, or a combination thereof determined in accordance with Clause 18.3.3, to be applied to a Successor Base Rate or an Alternative Base Rate, the objective of which, in each case, shall be to reduce or eliminate, to the fullest extent reasonably practicable, any transfer of economic value from one party to another as a result of a replacement of the Base Rate.

“**Alternative Base Rate**” means the reference rate that has replaced the Base Rate in customary market usage in the relevant debt capital markets for the purposes of determining rates of interest in respect of Green Capital Securities denominated in Swedish kronor or, if there is no such rate, such other rate as the Independent Adviser determines is most comparable to the Base Rate.

“**Base Rate Amendments**” has the meaning set forth in Clause 18.3.5.

“**Base Rate Event**” means that:

- (a) the Base Rate has:
 - (i) been permanently or indefinitely discontinued;
 - (ii) ceased to exist; or
 - (iii) ceased to be published for at least five (5) consecutive Business Days as a result of the Base Rate ceasing to be calculated or administered;
- (b) the Base Rate Administrator ceases to publish the applicable Base Rate permanently or indefinitely and, at that time, no successor administrator has been appointed to continue to publish the Base Rate;
- (c) the supervisor of the Base Rate Administrator:

“**Independent Adviser**” means an independent financial institution or adviser of repute in the debt capital markets where the Base Rate is commonly used.

“**Relevant Nominating Body**” means any applicable central bank, regulator or other supervisory authority or a group of them, or any working group or committee of any of them or the Financial Stability Council (Sw. *Finansiella stabilitetsrådet*) or any part thereof.

“**Successor Base Rate**” means a screen or benchmark rate which is formally recommended as a successor to or replacement of the Base Rate by a Relevant Nominating Body.

18.3 **Determination of Base Rate, Adjustment Spread and Base Rate Amendments**

- 18.3.1 Without prejudice to Clause 18.3.2, upon a Base Rate Event Announcement, the Issuer may, if it is possible to determine a Successor Base Rate or an Alternative Base Rate at such point of time, at any time before the occurrence of the relevant Base Rate Event at the Issuer’s expense appoint an Independent Adviser to determine a Successor Base Rate or, if there is no Successor Base Rate, an Alternative Base Rate and, in each case, the Adjustment Spread and any Base Rate Amendments for purposes of determining and calculating the applicable Base Rate. For the avoidance of doubt, the Issuer will not be obliged to take any such actions until obliged to do so pursuant to Clause 18.3.2.
- 18.3.2 If (i) a Base Rate Event has occurred or (ii) a Base Rate Event Announcement has been made and the announced Base Rate Event will occur within six (6) months, the Issuer shall use all commercially reasonable endeavours to, as soon as reasonably practicable and at the Issuer’s expense, appoint an Independent Adviser to determine, as soon as commercially reasonable, a Successor Base Rate or (if there is no Successor Base Rate) an Alternative Base Rate and, in each case, the Adjustment Spread and any Base Rate Amendments for purposes of determining and calculating the applicable Base Rate.
- 18.3.3 If the Issuer fails to appoint an Independent Adviser in accordance with Clause 18.3.2, the Holders shall, if so decided at a Holders’ Meeting or by way of Written Procedure, be entitled to appoint an Independent Adviser (at the Issuer’s expense) for the purposes set forth in Clause 18.3.2.
- 18.3.4 The Adjustment Spread determined by the Independent Adviser in accordance with Clause 18.3.1 or 18.3.2, shall be the Adjustment Spread which:

- (a) is formally recommended in relation to the replacement of the Base Rate by any Relevant Nominating Body; or

18.3.5 The Independent Adviser shall also determine any technical, administrative or operational changes required to ensure the proper operation of a Successor Base Rate or an Alternative Base Rate or to reflect the adoption of such Successor Base Rate or Alternative Base Rate in a manner substantially consistent with market practice (“**Base Rate Amendments**”).

18.3.6 Provided that a Successor Base Rate or (if there is no Successor Base Rate) an Alternative Base Rate and, in each case, the applicable Adjustment Spread and any Base Rate Amendments have been determined no later than ten (10) Business Days prior to the relevant Quotation Day in relation to the next succeeding Interest Period, they shall become effective with effect from and including the commencement of the next succeeding Interest Period.

18.4 **Interim measures**

18.4.1 If a Base Rate Event has occurred but no Successor Base Rate or Alternative Base Rate and Adjustment Spread have been determined at least ten (10) Business Days prior to the relevant Quotation Day in relation to the next succeeding Interest Period, the Interest Rate applicable to the next succeeding Interest Period shall be:

- (a) if the previous Base Rate is available, determined pursuant to the terms that would apply to the determination of the Base Rate as if no Base Rate Event had occurred; or
- (b) if the previous Base Rate is no longer available or cannot be used in accordance with applicable law or regulation, equal to the Interest Rate determined for the immediately preceding Interest Period.

18.4.2 For the avoidance of doubt, Clause 18.4.1 shall apply only to the relevant next succeeding Interest Period and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustments as provided in, this Clause 18.

18.5 **Notices etc.**

The Issuer shall promptly following the determination by the Independent Adviser of any Successor Base Rate, Alternative Base Rate, Adjustment Spread and any Base Rate Amendments give notice thereof to the Agent, the Issuing Agent and the Holders in accordance with Clause 24 (*Notices and press release*) and the CSD.

18.6 **Variation upon replacement of Base Rate**

18.6.1 No later than giving the Agent notice pursuant to Clause 18.5, the Issuer shall deliver to the Agent a certificate signed by the Independent Adviser and the CEO, CFO or any other duly

authorised signatory of the Issuer confirming the relevant Successor Base Rate or Alternative Base Rate, the Adjustment Spread and any Base Rate Amendments, in each case as determined in accordance with the provisions of this Clause 18. The Successor Base Rate or Alternative Base Rate, the Adjustment Spread and any Base Rate Amendments (as applicable) specified in such certificate will, in the absence of manifest error or bad faith in any determination, be binding on the Issuer, the Agent, the Issuing Agent and the Holders.

- 18.6.2 Subject to receipt by the Agent of the certificate referred to in Clause 18.6.1, the Issuer and the Agent shall, at the request and expense of the Issuer, without the requirement for any consent or approval of the Holders, without undue delay effect such amendments to the Finance Documents as may be required by the Issuer in order to give effect to this Clause 18.
- 18.6.3 The Agent and the Issuing Agent shall always be entitled to consult with external experts prior to amendments are effected pursuant to this Clause 18. Neither the Agent nor the Issuing Agent shall be obliged to concur if in the reasonable opinion of the Agent or the Issuing Agent (as applicable), doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Agent or the Issuing Agent in the Finance Documents.

18.7 **Limitation of liability for the Independent Adviser**

Any Independent Adviser appointed pursuant to Clause 18.3 shall not be liable whatsoever for damage or loss caused by any determination, action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its gross negligence or wilful misconduct. The Independent Adviser shall never be responsible for indirect or consequential loss.

18.8 **Failure to comply**

Failure by the Issuer to comply with the provisions of this Clause 18 shall, for the avoidance of doubt, not constitute a default pursuant to Clause 15 (*Default and Enforcement*) by the Issuer under the Green Capital Securities or for any other purpose.

19 **THE AGENT**

19.1 **Appointment of the Agent**

- 19.1.1 By subscribing for Green Capital Securities, each initial Holder appoints the Agent to act as its agent in all matters relating to the Green Capital Securities and the Finance Documents, and authorises the Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these Terms and Conditions) in any legal or arbitration proceedings relating to the Green Capital Securities held by such Holder, including the winding-up, dissolution, liquidation, company reorganisation (Sw. företagsrekonstruktion) or bankruptcy (Sw. konkurs) (or its equivalent in any other jurisdiction) of the Issuer. By

acquiring Green Capital Securities, each subsequent Holder confirms such appointment and authorisation for the Agent to act on its behalf.

- 19.2.4 The Agent shall treat all Holders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the Holders as a group and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other person, other than as explicitly stated in the Finance Documents.
- 19.2.5 The Agent is always entitled to delegate its duties to other professional parties and to engage external experts when carrying out its duties as agent, without having to first obtain any consent from the Holders or the Issuer. The Agent shall however remain liable for any actions of such parties if such parties are performing duties of the Agent under the Finance Documents.
- 19.2.6 The Issuer shall on demand by the Agent pay all costs for external experts engaged by it:

- Should the Agent not receive such information, the Agent is entitled to assume that no such event or circumstance exists or can be expected to occur, provided that the Agent does not have actual knowledge of such event or circumstance.
- 19.2.9 The Agent shall ensure that it receives evidence satisfactory to it that the Finance Documents are duly authorised and executed (as applicable). The Issuer shall promptly upon request provide the Agent with such documents and evidence as the Agent reasonably considers necessary for the purpose of being able to comply with this Clause 19.2.9. Other than as set out above, the Agent shall neither be liable to the Issuer or the Holders for damage due to any documents and information delivered to the Agent not being accurate, correct and complete, unless it has actual knowledge to the contrary, nor be liable for the content, validity, perfection or enforceability of such documents.
- 19.2.10 Notwithstanding any other provision of the Finance Documents to the contrary, the Agent is not obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any regulation.
- 19.2.11 If in the Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the Agent) in complying with instructions of the Holders, or taking any action at its own initiative, will not be covered by the Issuer, the Agent may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate security has been provided therefore) as it may reasonably require.

- 19.2.12 The Agent shall give a notice to the Holders before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the Issuer of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or if it refrains from acting for any reason pursuant to Clause 19.2.11.
- 19.2.13 Upon the reasonable request by a Holder, the Agent shall promptly distribute to the Holders any information from such Holder which relates to the Green Capital Securities (at the discretion of the Agent). The Agent may require that the requesting Holder reimburses any costs or expenses incurred, or to be incurred, by the Agent in doing so (including a reasonable fee for the work of the Agent) before any such information is distributed. The Agent shall upon request by a Holder disclose the identity of any other Holder who has consented to the Agent in doing so.
- 19.2.14 Subject to the restrictions of a non-disclosure agreement entered into by the Agent in connection with these Terms and Conditions, the Agent shall be entitled to disclose to the Holders any document, information, event or circumstance directly or indirectly relating to the Issuer or the Green Capital Securities. Notwithstanding the foregoing, the Agent may if it considers it to be beneficial to the interests of the Holders delay disclosure or refrain from disclosing certain information.

19.3 **Liability for the Agent**

- 19.3.1 The Agent will not be liable to the Holders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its negligence or wilful misconduct. The Agent shall never be responsible for indirect or consequential loss.
- 19.3.2 The Agent shall not be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts provided to the Agent or if the Agent has acted with reasonable care in a situation when the Agent considers that it is detrimental to the interests of the Holders to delay the action in order to first obtain instructions from the Holders.
- 19.3.3 The Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by the Agent to the Holders, provided that the Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the Agent for that purpose.
- 19.3.4 The Agent shall have no liability to the Issuer or the Holders for damage caused by the Agent acting in accordance with instructions of the Holders given in accordance with the Finance Documents.

19.3.5 Any liability towards the Issuer which is incurred by the Agent in acting under, or in relation to, the Finance Documents shall not be subject to set-off against the obligations of the Issuer to the Holders under the Finance Documents.

19.4 **Replacement of the Agent**

19.4.1 Subject to Clause 19.4.6, the Agent may resign by giving notice to the Issuer and the Holders, in which case the Holders shall appoint a successor Agent at a Holders' Meeting convened by the retiring Agent or by way of Written Procedure initiated by the retiring Agent.

19.4.2 Subject to Clause 19.4.6, if the Agent is insolvent or becomes subject to bankruptcy proceedings, the Agent shall be deemed to resign as Agent and the Issuer shall within ten (10) Business Days appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.

19.4.3 A Holder (or Holders) representing at least ten (10) per cent. of the Adjusted Nominal Amount may, by notice to the Issuer (such notice shall, if given by several Holders, be given by them jointly), require that a Holders' Meeting is held for the purpose of dismissing the Agent and appointing a new Agent. The Issuer may, at a Holders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Holders that the Agent be dismissed and a new Agent appointed.

19.4.4 If the Holders have not appointed a successor Agent within ninety (90) days after the earlier of:

- (a) the notice of resignation was given;
- (b) the resignation otherwise took place; or
- (c) the Agent was dismissed through a decision by the Holders,

the Issuer shall within thirty (30) days thereafter appoint a successor Agent which shall be an independent financial institution or other reputable company with the necessary resources to act as agent in respect of market loans.

19.4.5 The retiring Agent shall, at its own cost, make available to the successor Agent such documents and records and provide such assistance as the successor Agent may reasonably request for the purposes of performing its functions as Agent under the Finance Documents.

19.4.6 The Agent's resignation or dismissal shall only take effect upon the earlier of:

- (a) the appointment of a successor Agent and acceptance by such successor Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent; and
- (b) the period pursuant to Clause 19.4.4 having lapsed.

19.4.7 Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the

Finance Documents and remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Issuer and each of the Holders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original Agent.

- 19.4.8 In the event that there is a change of the Agent in accordance with this Clause 19.4, the Issuer shall execute such documents and take such actions as the new Agent may reasonably require for the purpose of vesting in such new Agent the rights, powers and obligation of the Agent and releasing the retiring Agent from its further obligations under the Finance Documents and the Agency Agreement. Unless the Issuer and the new Agent agree otherwise, the new Agent shall be entitled to the same fees and the same indemnities as the retiring Agent.

20 THE ISSUING AGENT

- 20.1 The Issuer shall when necessary appoint an Issuing Agent to manage certain specified tasks under these Terms and Conditions and in accordance with the legislation, rules and regulations applicable to and/or issued by the CSD and relating to the Green Capital Securities. The Issuing Agent shall be a commercial bank or securities institution approved by the CSD.
- 20.2 The Issuer shall ensure that the Issuing Agent enters into agreements with the CSD, and comply with such agreement and the CSD Regulations applicable to the Issuing Agent, as may be necessary in order for the Issuing Agent to carry out its duties relating to the Green Capital Securities.
- 20.3 The Issuing Agent will not be liable to the Holders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its gross negligence or wilful misconduct. The Issuing Agent shall never be responsible for indirect or consequential loss.

21 THE CSD

- 21.1 The Issuer has appointed the CSD to manage certain tasks under these Terms and Conditions and in accordance with the CSD Regulations and the other regulations applicable to the Green Capital Securities.
- 21.2 The CSD may retire from its assignment or be dismissed by the Issuer, provided that the Issuer has effectively appointed a replacement CSD that accedes as CSD at the same time as the old CSD retires or is dismissed and provided also that the replacement does not have a negative effect on any Holder or the admission to trading of the Green Capital Securities on the sustainable bond list of Nasdaq Stockholm (or any other Regulated Market, as applicable). The replacing CSD must be authorised to professionally conduct clearing operations pursuant to the Swedish Securities Market Act (Sw. *lag (2007:528) om värdepappersmarknaden*) and be authorised as a central securities depository in accordance with the Central Securities Depositories and Financial Instruments Accounts Act.

22 NO DIRECT ACTIONS BY HOLDERS

- 22.1 A Holder may not take any action or legal steps whatsoever against any Group Company to enforce or recover any amount due or owing to it pursuant to the Finance Documents, or to initiate, support or procure the winding-up, dissolution, liquidation, company reorganisation (Sw. *företagsrekonstruktion*) or bankruptcy (Sw. *konkurs*) (or their equivalents in any other jurisdiction) of any Group Company in relation to any of the obligations or liabilities of such Group Company under the Finance Documents. Such steps may only be taken by the Agent.
- 22.2 Clause 22.1 shall not apply if the Agent has been instructed by the Holders in accordance with the Finance Documents to take certain actions but fails for any reason to take, or is unable to take (for any reason other than a failure by a Holder to provide documents in accordance with Clause 19.1.2), such actions within a reasonable period of time and such failure or inability is continuing. However, if the failure to take certain actions is caused by the non-payment of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or by any reason described in Clause 19.2.11, such failure must continue for at least forty (40) Business Days after notice pursuant to Clause 19.2.12 before a Holder may take any action referred to in Clause 22.1.

23 TIME-BAR

- 23.1 The right to receive repayment of the principal of the Green Capital Securities shall be time-barred and become void ten (10) years from the relevant Redemption Date. The right to receive payment of interest (excluding any capitalised interest) shall be time-barred and become void three (3) years from the relevant due date for payment. The Issuer is entitled to any funds set aside for payments in respect of which the Holders' right to receive payment has been time-barred and has become void.
- 23.2 If a limitation period is duly interrupted in accordance with the Swedish Act on Limitations (Sw. *preskriptionslag (1981:130)*), a new limitation period of ten (10) years with respect to the right to receive repayment of the principal of the Green Capital Securities, and of three (3) years with respect to the right to receive payment of interest (excluding capitalised interest) will commence, in both cases calculated from the date of interruption of the time-bar period, as such date is determined pursuant to the provisions of the Swedish Act on Limitations.

If the Issuer does not promptly issue a press release and the Agent considers it necessary to issue a press release containing such information before it can lawfully send a notice containing such information to the Holders, the Agent shall be entitled to issue such press release.
